Find Out Your Disease Free This Week

A Free Medical Examination—Your OPPORTUNITY!

It's your opportunity to accept Dr. Shores' great special free offer FOR THIS WEEK ONLY of free examination and free advice to demonstrate their skill and to further improve upon the minds of the afflicted the great importance of thoroughness in diagnosis and treatment. We will tell you FREE what the NATURE and CAUSE of your ailment REALLY IS, and IF and HOW you can be cured. This is a rare opportunity for the sick and afflicted to get an expert opinion on their case from a physician who knows how to cure. We have seen thousands of cases cured. Dr. Shores is a regular graduate and licensed physician and is entirely reliable.

CATARH OF HEAD AND THROAT
This form of catarrh is most common—usually resulting from neglected colds. Successfully treated with little cost by Dr. Shores' treatment.
Does your nose discharge?
Is your nose sore and tender?
Do you have a lump in the throat?
Do you have a lump in the throat?
Do you get dry in the morning?
Do you sleep with your mouth open?
Do the nose ring or discharge?
Now is the time to be treated—don't let it run into complications.

ASTHMA
No one but an Asthmatic can appreciate the terrible distress of this disease. Coughing, sneezing, gasping for breath—sometimes feeling as if up to bed at night, are but a few of the terrible symptoms of an Asthmatic sufferer. If you are an Asthmatic sufferer, let our wonderful treatment—Dr. Shores'—give you almost immediate relief.

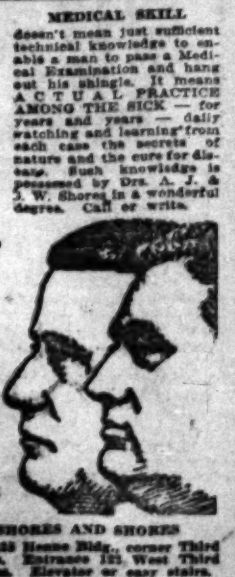

SCURVY
This affliction often baffles the skill of the regular doctor—and tries the patience of the specialist—but our methods have proven successful in every case. Catarrh of the stomach has failed to cure you. It is worth your time to consult us. We will gladly explain our method of treatment free of charge.

STOMACH AND LIVER
If you have distress and bloating after eating don't neglect treatment. Catarrh of the stomach is a most common ailment and can be cured. But remember, a cure of the stomach we cannot cure. Don't neglect stomach and liver trouble. Consult doctors who know how to cure.

RHEUMATISM
If you are suffering about with rheumatic joints or suffering tortures from inflammatory rheumatism—come and let us explain our theory and treatment for this painful affliction.

REMINDER
Don't forget after you the result of their 25 years experience and of the many cures they have effected at reasonable prices. Medicine free to patients. Don't pay for a cure. Get it. OFFICE HOURS—9 a.m. to 5 p.m. Evenings, 7 to 9 p.m. Sundays, 10 to 12 p.m.

DR. SHORES AND SHORES
Room 505 to 509 Home Bldg., corner Third and Spring Sts., Entrance 121, West Third St., Los Angeles. Elevator or easy stairs.

WOULD DETERMINE SEX BY MEANS OF COLORS.

(BY A. P. DAY WIRE TO THE TIMES.)
CHICAGO, Oct. 1.—Dr. Albert Abrams of San Francisco, who is here attending the convention of the American Association for the Study of Spondylitis, a science of which he is the founder, today outlined experiments by which he has attempted to influence sex before birth. "Certain colors are known to have certain effects on the human system," said Dr. Abrams. "If it is possible to bring a certain color to bear on the mother, I believe that eventually we will be able to determine what the sex of the child may be."

"If red light can be focused on her head the male element will be increased," he said. "If blue be chosen, the quieting effect will result in the child being a girl. The only question is bringing the influence of light to bear."

LABOR ORGANIZATIONS ENITE.

Four Railway Unions in Louisiana and Texas Get Together to Fight Southern Pacific.

(BY A. P. NIGHT WIRE TO THE TIMES.)
HOUSTON (Tex.), Oct. 1.—Four union railway associations in Louisiana and Texas have formed an association under a co-operative movement to fight for a strict compliance with their working schedule. With the Southern Pacific lines from New Orleans to El Paso, it was announced here today.

The organizations in the agreement are the firemen and engineers, locomotive engineers, railway trainmen and conductors.

The men claim the mediation agreement reached with the company under negotiations conducted by Federal Mediator Nall are not being observed. The company denies this.

EMPLOYERS CLOSE WORKS.

Lancashire Manufacturers Shut Down Pending Strike at the Bolton Mill.

(BY CABLE AND A. P. TO THE TIMES.)
LANCASHIRE (Eng.), Oct. 1.—The Lancashire cotton employers at a meeting here today decided to close all their mills from October 25 on if the strike of the workmen at the Beehive mill, Bolton, has been settled. The workers at the Beehive mill struck against the advice of their leaders, who are in no way cases that of their trades union, owing to their objection to the personality of one of their overseers.

JAMES B. HAGGIN ILL.

Famous Horseman and Copper Magnate Suffering from Pneumonia and May Not Live.

(BY A. P. NIGHT WIRE TO THE TIMES.)
LEXINGTON (Ky.), Oct. 1.—James B. Haggin, famous horseman and copper magnate, is suffering from pneumonia at his home, Green Hills, near here, today. Mr. Haggin, who is 77 years old, became suddenly ill yesterday. His condition is serious. He has not been in good health since he fell down some stairs in New York last February. He came to Lexington three weeks ago.

TWO SHOT IN SALOON ROW.

Men Quarrelling Over Debt in Stockton Drink Emporium Turn Loose With Guns.

(BY A. P. NIGHT WIRE TO THE TIMES.)
STOCKTON, Oct. 1.—Victor Aguirre was wounded in the left arm as he stepped into a saloon tonight and another man was shot in the neck while drinking at the bar, by Oliver Ojeda, a Mexican laborer, who attempted to shoot Louis Flores, whom he asserted owed him \$10. Flores and Ojeda quarreled about the debt and the latter whipped out a revolver and commenced shooting. Flores escaped unhurt. The two men hit were taken to Ojeda. The gunman is in jail. The wounds suffered by the patrons of the saloon are not serious.

SCHOOL WILL GET MONEY.

WASHINGTON BUREAU OF THE TIMES, Oct. 1.—[Exclusive Dispatch.] The Senate Committee on Appropriations assured Congressman Baker today that it would include in the urgent deficiency bill an item of \$10,000 for installing electric lights and water system at the Ft. Bidwell Indian School.

ABOLISH COMMERCE COURT.

Senate Appropriations Committee Decides to Wipe Out Body as Useless Adjunct.

(BY A. P. NIGHT WIRE TO THE TIMES.)
WASHINGTON, Oct. 1.—A struggle to save the Commerce Court from abolition in the Senate Appropriations Committee ended today when the full committee agreed to the provision placed in the urgent deficiency bill by the House abolishing the court and distributing its jurisdiction to the various district courts. Supporters of the court made a vigorous fight to prevent the adoption of the House provision by the committee, but were defeated.

YOUNG OELRICHS CHARGED WITH STABBING A GIRL.

Son of Millionaire New York Widow Alleged to Have Attacked Woman With Whom He Was Riding in Auto and Is Later Trapped by Police in Act of Offering Money to Hush Up Affair.

(BY A. P. NIGHT WIRE TO THE TIMES.)
NEW YORK, Oct. 1.—Hermann Oelrichs, Columbia law student, and son of the late Hermann Oelrichs, shipping merchant, was arrested by order of Deputy Police Commissioner Dougherty late tonight on a charge of felonious assault on a girl, Lucille Singleton, a 19-year-old Bryn Mawr student, daughter of a Texas mine owner.

At the same time a detective, Theodore Trayer, who had investigated an automobile accident to young Oelrichs on Broadway last night was suspended. Trayer's report regarding the accident in which Miss Singleton had been reported by being tossed through the windshield of the machine, was not satisfactory in the light of developments in the case as obtained later by other detectives. It was announced at police headquarters.

Miss Singleton told these detectives, according to Dougherty, that she had been stabbed by a man to whom she alluded as "Creighton," her companion in the car. Trayer, prior to this, had reported, said Dougherty, that Oelrichs, as her assailant, had stabbed and that in reply to a question whether she knew Oelrichs, she replied she did not.

The machine that met with accident, however, striking a stone and crashing into a tree, belonged to Oelrichs. The girl's companion fled, leaving the wrecked car behind him, and Oelrichs was removed to a hospital and later to her home.

A youth wearing glasses and saying he was a detective called on Miss Singleton today and advised her to "settle" the case for money, detectives told Dougherty, and after a conversation in which the sum of \$10,000 was mentioned, an understanding was reached that "Creighton" was to give her \$10,000.

Oelrichs was arrested as a result of a conversation between the two and Miss Singleton. The other man was not made a prisoner. The young woman's condition, it was said tonight, is not serious.

Oelrichs was locked up in a police station tonight to await arraignment tomorrow. He is 23 years old, a first-year student in the law school.

Dougherty announced later tonight that Miss Singleton had identified Oelrichs as her assailant, and that the automobile accident happened when Oelrichs let go the steering wheel to attack her. A few minutes later the Dougherty said Miss Singleton declared she had told Oelrichs that she had a dinner engagement with another man.

TAX COLLECTOR IN DOUBT.

Former State Senator Bryant Still in the Running in San Francisco Election.

(BY A. P. NIGHT WIRE TO THE TIMES.)
SAN FRANCISCO, Oct. 1.—Complete returns today on the city and county primary elections held here yesterday indicated no change in the results, beyond the fact that Edward M. Bryant, former State Senator, is still in the running with J. O. Low, believed last night to have been elected Tax Collector. The final result will be determined in the November elections.

The only candidates elected—Edward J. Shortall, to be police judge; Andrew J. Gallagher, to be supervisor; John E. McDougald, to be City Treasurer, and M. J. Hyman, to be Public Administrator—had the endorsement of the labor union and were opposed by four of the six newspapers in the city. Judge Shortall, who is re-elected, was characterized as "temporarily unfit" for his office in a report recently made by a committee of club women who had been investigating the police courts.

He polled the heaviest vote by 3000 of any candidate for any office.

FOREST FIRES STILL BURNING.

Two Hundred Men Are Fighting Flames About Napa With Strong Wind Blowing.

(BY A. P. NIGHT WIRE TO THE TIMES.)
NAPA (Cal.), Oct. 1.—The forest fire which broke out with renewed vigor yesterday, after being considered subdued a week ago, is still burning tonight, according to advice received from State Forester Dodge and Sheriff Kelton, who are leading two hundred fire fighters. The flames are still in Chiles Valley and are fanned by a strong north wind.

Another forest and field fire is raging near Ot Hill, north of Calistoga. One hundred men are fighting the flames in an endeavor to prevent them from entering the town.

A relief fund has been started to supply clothing and food to the twenty families whose homes in Foss Valley were destroyed last week. More than \$100 has already been contributed.

DROP ELECTION CHARGE.

House Elections Committee Decides to Dismiss Case Against South Carolina Congressman.

(BY A. P. NIGHT WIRE TO THE TIMES.)
WASHINGTON, Oct. 1.—After examining witnesses brought to support the charge that Representative Richard S. Whaley of the First South Carolina district had spent large sums unlawfully to gain election, the House Elections Committee decided today to adjourn until December 1. It was said at the Capitol that the committee would make no further inquiry and take no action on the charges, filed originally with Speaker Clark by Mayor John P. Grace of Charleston.

WILL DECIDE LATER.

Appointments of Governor of Porto Rico and Philippine Commissioner Are Held Up.

(BY A. P. NIGHT WIRE TO THE TIMES.)
WASHINGTON, Oct. 1.—Secretary of War Garrison conferred with the President today on the forthcoming appointments of Governor of Porto Rico and Philippine Commissioner. The Secretary said no conclusion had been reached. Candidates for Governor of Porto Rico include Attorney Tager of Georgetown, Ky., a former president of the college there, who was a classmate of President Wilson at Princeton. Senator James is strongly urging the appointment of the attorney. The committee would make no further inquiry and take no action on the charges, filed originally with Speaker Clark by Mayor John P. Grace of Charleston.

REPORT ON RURAL CREDITS.

Chairman of House Banking Committee Will Appoint Board to Investigate the Subject.

(BY A. P. NIGHT WIRE TO THE TIMES.)
WASHINGTON, Oct. 1.—Chairman Glass of the House Banking and Currency Committee was authorized today to appoint a subcommittee to make a thorough investigation of the subject of the rural credit and agricultural loans. The committee probably will not report any plan for legislation before next winter. The subcommittee on the subject of guarantees of bank deposits also was authorized.

San Diego Case Set.

CHICAGO, Oct. 1.—[By A. P. Night Wire.] The government's suit for \$100,000 against the firm of Holdreiter & Noy for failure to complete the government pier at San Diego, Cal., was set for trial December 1 by U. S. District Judge Lind.

APPEAL JUDGE'S ORDER.

DENVER (Colo.) Oct. 1.—[By A. P. Night Wire.] The Kansas Natural Gas Company was taken under appeal by the United States circuit court of appeals shortly before noon today. The receivers appointed by the court to take possession of the company's property, including the gas wells and pipelines, are to be removed from office. The court of appeals is to decide whether the receivers are to be removed from office.

French Politicians.

BOULOGNE (France) Oct. 1.—[By A. P. Night Wire.] The French press today granted an authentic report to depart from France to London, the German officer who had been near here with his aeroplane on September 29.

WILL PRES SULZER

Prosecution Final
Impeachment

Wife May Take S
the End Is R

Governor to Co
Received Is

(BY A. P. NIGHT WIRE TO THE TIMES.)
ALBANY (N. Y.) Oct. 1.—The assembly board of managers today in the impeachment of Gov. W. W. Averett. The high court then a tomorrow afternoon, when the Governor will submit preliminary motions for the defense before opening the defense.

These disposed of, counsel will ask permission to adjourn before calling witnesses. This witness, it is expected, will be a campaign secretary for the impeachment movement, put on the stand, although the defense has many of the checks of his campaign which were in his possession at the time of his statement.

The Governor and Mr. Averett are to take the stand in defense of the Governor. The Governor's failure to report contributions on the part of his personal friends.

MRS. SULZER TO
Mrs. Sulzer, it is expected, will take the stand with testimony in defense of her husband. She is expected to tell the court she is said to have been in the Governor's office at the time of the alleged transaction with the Carnegie company and seek to prove the sole purpose of paying the Governor borrowed money from the Black Exchange firm of L. Colwell, the Governor's agent in his Wall Street office, was a subscription to the Albany Evening Journal, but they have produced him unless it will be shown that he was not in the office at the time of the transaction.

They were powerless to do anything to prevent the transaction, which was said to have been contracted by the Governor's secretary, Mr. J. J. Harris & Fuller, according to the testimony of the Governor's secretary, Mr. J. J. Harris & Fuller, New York, where he is from Europe. His testimony will be highly favorable to the Governor.

HINMAN TO SPEAK
Attorney Harvey Hinman will make the address opening the case. It was charged that Mr. Hinman, who has been of the cross-examination, exhausted, that Judge D. J. Rice, chief counsel for the defense, asked today that adjournment until Monday.

The close of the case of the managers today marked the end of the trial of six days consumed in money. Many witnesses were called, including William H. Buffaloe and Hugh J. York, railroad builder. Both were supposed to have been paid to testify as to contributions to the Governor.

The final shot of the managers today was the testimony of John B. Gray, a broker, who testified that he had paid \$500 of Frederick L. Colwell, the Governor's agent, to contribute to the Governor's campaign.

Gray also said he had paid Colwell to contribute to the Governor's campaign. Gray also said he had paid Colwell to contribute to the Governor's campaign. Gray also said he had paid Colwell to contribute to the Governor's campaign.

MANAGERS PLEA
Attorneys for the managers pleaded themselves tonight. Now that the money is all in, Attorney Kresel said that he would be made to locate a "woman" in the case. Frederick L. Colwell, the Governor's agent, wanted her charged with the case. Colwell, but they have produced him unless it will be shown that he was not in the office at the time of the transaction.

Colwell at length if he is called to the stand.

CUMMING QUESTION
Robert C. Cumming, a legislative bill drafting department for the past thirteen years, was asked today whether he had any knowledge of the drafting of the exchange reform bill.

Governor. Among the questions asked today were whether he had any knowledge of the drafting of the exchange reform bill.

Gray said the last time he saw the bill was when it was introduced in the committee.

SENATORS OUT OF PIE
NOW FIGHTING JOHNSON.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, Oct. 1.—[Exclusive Dispatch.] The rift in the Bull Moose line is said to be much larger than was first believed. Senators Gates, Strohbridge and Boynton are very bitter against the Governor, and apparently will bend all their energies to defeat him in the coming campaign. As soon as the "pie" is cut, the Senators were not so strong for the progressive cause as formerly, and with more prospect of obtaining revenue under a new regime are now looking for some one to carry the standard. The Governor, it is stated, does not appreciate the extent of the disaffection among his one-time followers, and is not prepared to withstand their attacks in the same strenuous manner that he would be if he had been warned.

LEARNERS OF THE MUTINY.

[BY DIRECT WIRE TO THE TIMES.] SACRAMENTO, Oct. 1.—[Exclusive Dispatch.] Gov. Hiram W. Johnson, learning for the first time of the alleged "mutiny" luncheon held recently in San Francisco and attended by six Progressive State Senators, who are said to have repudiated the executive and vowed to "knife" him from now on at every opportunity, issued the following statement:

"I assume that Progressives will determine their course in due season. Personally, I shall be a can-

didate for any office will be determined by me at the end of this year. The policy of Progressives will be determined by the great body of Progressives—not by any one or two or three men."

Knowledge of a break in the Progressive party ranks was denied by Governor Johnson yesterday.

"I read this article," said the Governor, "but all that I can say is that I know nothing whatever of such reports. It is all absolutely news to me."

The story to which the Governor referred was that in which it was reported that State Senators Boynton, Gates, Strohbridge and three other Bull Moose Senators have decided to cut loose from Johnson and fight him.

The reported split in the ranks was also denied yesterday by Charles Dietrich, secretary of the State Railroad Commission and former secretary of the Lincoln-Roosevelt League, who was in Sacramento.

Senator Newton Thompson of Los Angeles, who is said to be wavering and in sympathy with the arch-conservatives, neither denied nor affirmed this accusation yesterday.

An Angeles man was at the Governor's office to attend the initial meeting of the new-created legislative council bureau. He was cordially received.

"I wonder who the other Senators were who attended that Palace luncheon?" was the only comment he had to make.

Lost.

STUDENT OF JOURNALISM
STUBS TOE IN NEW YORK.

(BY A. P. NIGHT WIRE TO THE TIMES.)

NEW YORK, Oct. 1.—William Henry Nugent of No. 505 Buchanan street, San Francisco, student of Journalism and amateur explorer, has been rescued after a perilous journey in the wilds of Greater New York. Rescue parties discovered tonight that he had at last reached the borders of civilization at Flatbush, L. I.

Nugent came to New York recently to enter the Columbia School of Journalism. Wednesday of last week he left his base of supplies at a fraternity house on Morongo Heights in an attempt to make his way unaided to the New York postoffice. When he failed to return to the supply base, his supporting party became alarmed and sent out searching parties and a general call for assistance.

In vain they searched the barren lands of the Bronx. In vain they prowled the canyons of the Wall-street district. In vain they searched the ice hummocks about Longacre Square while the aurora borealis

which shines along the Great White Way illumined their way. Not even a footprint was found to show the course of the explorer until, at last, when a telephone message from Flatbush announced that Nugent had reached that desolate outpost.

The message stated that his effort to reach the postoffice had been in vain, and that while seeking to retrace his steps he injured his ankle in a crevasse. While he made no charges, it is believed the tribe of natives he met on his journey proved untrustworthy.

Nugent announced that he had decided to abandon Gotham exploration and will make his way as rapidly as possible back to the Golden Gate. Those familiar with Nugent's former experiences as an explorer expressed surprise at the ill-fated result of his expedition. They declared that he frequently made his way from Ingle-side to the San Francisco ferry, and from the Mission to North Beach in the thickest fog, not only unaccompanied, but without the aid of a compass. It is understood that Nugent gathered valuable data regarding the flora and fauna of New York while on his journey.

FIRE THREATENS OAKLAND.

Brush Blaze Starting North of City Menaces the Salvation Army Rescue Home for Girls.

[BY A. P. NIGHT WIRE TO THE TIMES.] OAKLAND, Oct. 1.—Fanned by a brisk north wind, a brush fire that started last night on Leona Heights, near this city, soon spread over a large area, and for a time threatened the Salvation Army Rescue Home for Women and Girls.

A score of men and some of the women inmates of the home fought back the fire last night and this morning when it gained a fresh start, several companies of the local fire department were called to the scene. The flames are now reported under control.

For a time the buildings of a local quarry were in danger, and four tons of powder were removed from a magazine in a safe distance. Reports that Mills College was in the path of the flames proved unfounded.

SPECIAL SESSION FOR THAW.

New York Grand Jury May Be Convened by Attorney-General to Take Charge of Proceedings.

[BY A. P. NIGHT WIRE TO THE TIMES.] ALBANY (N. Y.), Oct. 1.—The advisability of a special session of the New York county grand jury to consider developments in the Thaw case was discussed today by Acting Gov. Glynn, Atty.-Gen. Carmody, William Travers Jerome and Dist. Atty. Conner of Dutchess county. An order convening the grand jury and designating the Attorney-General to take charge of the proceedings is expected from Acting Gov. Glynn tomorrow. Reports have been received by the state officials, it was said today, that undue influence had been used in an effort to prevent the Dutchess county grand jury from returning an indictment against Thaw charging bribery in connection with his escape.

LETTING OTHERS DO IT.

Johnson Now Says He Will Put His Future Political Life in Progressive Hands.

[BY A. P. NIGHT WIRE TO THE TIMES.] SACRAMENTO, Oct. 1.—Gov. Johnson in speaking this morning of the circulated story that he would be forced into running for Governor because of the animosity which several prominent Progressives are said to be displaying toward him, reiterated the statement that he would not decide until the end of the year whether he would again be a candidate for public office. His statement also tend that the policy of Progressives depended upon the will of the people, and not upon a few men. Gov. Johnson said:

"I assume the Progressives will determine their course in due time. Whether personally I shall be a candidate for any office will be determined by me at the end of this year."

"The policy of Progressives will be determined by the great body of Progressives—not by any one or two or three men."

NAVY STEEL PLANT CLOSED.

Americans Out of Employment in Brooklyn While Part of Work Goes to England.

[BY A. P. NIGHT WIRE TO THE TIMES.] NEW YORK, Oct. 1.—The steel plant at the Brooklyn navy yard shut down today. Seventy men were discharged and several hundred others will be indirectly affected by the change. The shutdown was attributed to the economy policy of the Navy Department. Contracts for steel work on the new superdreadnoughts assigned for construction to the local yard have been let elsewhere, some of the work even going to England.

Don't Wait until the last minute to telephone your "want ads" to The Times, but get it in early.

"Here is the premium you want!"

High quality, assured and uniform.—That is what you get in every can of Campbell's Soups.

We spare no expense to obtain the choicest materials, and to prepare them with the utmost delicacy and skill. WOMEN'S WORK,
WOMEN'S CLUBS.

BY SYDNEY FORD.

Have you a Balkan germ? No, it's not a disease, neither is it dangerous. Quite the contrary, and they are very fashionable, these Balkan germs.

Twice within a week now have I heard them described, diagnosed, recommended and defended. The last time was at a fashionable luncheon and quite unceremoniously and a perfectly matter-of-fact tone, one of the guests turned to her neighbor on the left and casually inquired:

"How is your germ coming on?" For a minute a startled look passed over the face of the uninitiated, for the remark happened to come in the midst of a momentary lull and every one at the table heard.

"Oh, I'm so susceptible—I always catch everything," shuddered the lady at the right of the hostess, who have just returned from tonalitis, and last week I had a touch of rheumatism—what is this germ?"

"Why, it's the Balkan germ," cheerfully replied the lady who launched the subject as she calmly ate her salad. "It is a germ, you know, we're all taking them—drop one in a pint of milk and in no time it is gone."

plan remove the germ and drink the milk. It is a germ, you know, it destroys all other germs in your system; is death on uric acid and rheumatism simply cannot live with a Balkan germ. You are absolutely immune from disease—it cannot touch you."

"Every woman at the table sat up and took notice."

"Where can you buy 'em?" chorused the twenty.

"Oh, my, you can't buy them anywhere—you simply get one from somebody who has one. You know they propagate very rapidly. I have seen a woman who has one today."

"But where did the first one come from—how did it get here—tell us about it," cried the woman with the Titan hair.

"Well, you see, the first one was brought to this country from Serbia by a woman who was suffering from Bright's disease and then, as the germ propagated, he gave them away to his friends and so the distribution began. Now you can get 'em quite readily for lots of Los Angeles people are trying them. My husband and I both drink a pint of the fermented milk every night and its effects are simply wonderful."

"Marvelous."

Yes, indeed, it's a fact, the Balkan germ had struck Los Angeles and struck us hard. If you haven't a germ, get one quick. No matter how old you are, or how fat, or how one of the house by all means just to be up with the times and down to date. As soon as you have the germ in the milk, for believe me, germs are fashionable this season and will be about it. I read only yesterday that no less than 16,000,000 of them landed in Boston—and we all know that Boston is the last word in culture—be it germ culture or otherwise. These particular germs have come from Ecuador and Peru and are the result of a germ hunt on the part of a couple of scientists with a whole alphabet after their respective names. They are in charge of a woman, the name I mean, for there are as yet in captivity—a Miss Nora Dwyer, and they are a fine assortment I assure you—peas, fever, yellow, fever, typhoid, whichever you prefer—bubonic plague, leprosy and several other South American diseases with which I have no speaking acquaintance. The object in procuring these germs is for scientific study, and un-

like the Balkan species they are not for free distribution.

Would You Grow Slim?

Having finished germs and every one of us having been promised a nice fat Balkan specimen, the talk turned to flesh reducing. "I've tried the X-pom salts," said the stout lady, "and really they are very effective. Yes, dear, a pound of salts to a tub of water—it simply melts the flesh off."

"I lost ten pounds in a month and no evil effects."

"A friend of mine went to a special flesh-reducing sanatorium this summer—took her vacation there," remarked the lady in the chiffon blouse, "and what do you think the treatment was? Well, the patients were made to dance every day and walk two miles in the hot sun every single morning. Perspiration! Well, I should say—in perfect rivers."

"marked the lady in the chiffon blouse," and what do you think the treatment was? Well, the patients were made to dance every day and walk two miles in the hot sun every single morning. Perspiration! Well, I should say—in perfect rivers."

"naturally melted the flesh off. You see it all amounts to the same thing in the end. You know pupils think nothing of taking a long number of pounds of superfluous flesh in a given time. Their trainers simply put them through a course of Turkish baths and that does the trick. Now both the X-pom salts and the six-sweater system attain the same results—exercise, plenty of perspiration and a proper attention to the diet and you can get 'most any size you want," and the woman with the perfect figure nonchalantly slipped her bouillon.

Ruskin Art Tea.

The Ruskin Art Club will open the new headquarters on the fourth floor of the Blanchard building this afternoon with a social function in the form of a tea.

Dominant Club Tea.

The Dominant Club will hold its first fall meeting next Saturday afternoon at the Ethel Clubhouse. A musical programme consisting entirely of compositions by club members will be the feature of the afternoon. This club, as is well understood in musical circles, is made up exclusively of professional musicians and their programmes are always well worth hearing, while the tea and sandwiches which inevitably follow are of such quality as to have made this part of the programme exceedingly popular.

To say that you have taken tea with the Dominants is equivalent to carte blanche admission in the most exclusive musical circles in town.

Pacific Branch Formed Here.

It is interesting to know that the Pacific Branch of the Methodist Women's Foreign Missionary Society, which will hold its annual meeting here October 7-10, was started in Los Angeles just twenty-five years ago.

and it is therefore proposed to make this silver anniversary of the founding of the society an event. The beginning was a small city in those days, but today the work of the society is as extensive as the world.

tries, has eighteen missionaries in the field and two more under appointment; supports nearly 100 Bible women as well as many scholars and orphans, and is doing a great hospital work. For the maintenance of all this, there comes into the treasury of the society every year more than \$10,000.

Many of the founders of the society who were here twenty-five years ago are still active and will be present at the occasion. At a special time during the day, October 9, to celebrate the anniversary, the society will hold the three days.

ladies serving punch were chosen from the Hospitality Committee, which is composed of Misses P. O. Prince, F. B. Elwood, H. D. McDonald, W. W. Parker, W. Malcolm, R. D. Crow, H. J. Grant, C. H. Armstrong, A. C. Silkes, J. E. Dunbar, Fred Avis, J. J. Conrad, P. H. Joyner.

The president gave an interesting and careful review of the club's many activities during the past twenty years. Mrs. Rose closed her address with these words: "My ambition for

The Ideal Home for \$7000

Is Built and Wonderfully Pictured Next Sunday in the

"House Building and Furnishing Annual"

—of the—

SEMI-MONTHLY
MAGAZINE

—Section of—

The Los Angeles Times

This is the most unique, reliable and thorough-going guide to the building and furnishing of an Ideal Home at small cost that has ever been presented in popular magazine shape.

It is a Home with every advantage—a country house in the city or in the suburbs, as you like. It includes the house, garage, pergolas and gardens, all illustrated and described in every detail.

Leading architects, contractors, horticulturists and decorators have combined to plan and direct the building and beautifying of this Ideal Home to be built at moderate cost. Their ideas expressed in text and picture, including the cover design, showing the house and grounds done in colors, occupy twenty pages of the magazine, designed by J. Manley Rose.

Everything impractical and all excessive costs have been eliminated, and the extremely attractive figure that the home and grounds may be built and laid out for, are not merely the result of the architect's fertile brain. Contractors and builders in all parts of the country have estimated upon the cost of these plans, and the result is given you in this issue in a remarkably effective manner.

Complete Working Plans and Specifications may be procured through this Special Issue. Be sure to get a set and take them to your own architect and have him act as your supervising and erecting architect.

Don't forget the date—October 5th. Better order of your Newsdealer today.

CONTENTS

"A Plea for the Detached House"

EDITORIAL.

By Aymar Embury II.

One of the Leading Country House Architects of America.

I. "A COUNTRY HOUSE IN THE CITY"—Illustrated in colors on the front cover, is shown the exterior of the house and grounds, including the garage, costing as follows: House, \$5540; Garage, \$500; Pergolas, etc., \$220; Plants, \$175; Grading, etc., \$565—\$7000 complete.

II. "THE IDEAL HOME"—Introductory article, in which the ground plan of the house and gardens is shown, and which maps out the entire premises.

III. "THE IDEAL HOUSE PLAN"—Explaining the interior arrangement, with first and second floor plans—and illustrations of the Living Room and Dining Room of the Ideal Home.

IV. "A LIVABLE OUT-OF-DOORS"—Dealing with the outdoor sleeping porch, kitchen yard and vegetable garden, also the rose garden, walks and pergola.

V. "THE PRACTICAL SIDE OF THE QUESTION"—This concerns the cost of materials and construction, and so on—and all figures have been carefully verified as to the average cost in any part of the United States.

VI. "HOW WE DECORATE THE IDEAL HOME"—This important subject receives special attention and is gone into thoroughly. Pictures are shown of the Pergola Porch and the Owner's Bedroom.

VII. Among the other features that round out this splendid and unique House Building and Furnishing Annual are: "Formality Versus Informality," "The Garage," "The Owner As a Handy Man," "Ideal Bathrooms," "The More Than Practical Casement Window," "A Really Convenient Kitchen," "Heating and Lighting," and "Paint—Indoors and Out."

Viewed from all sides, this is the most complete and attractive panorama of a \$7000 house that has ever been assembled between popular magazine covers—and has the added merit of dealing with one house only, and not with a confusing number of houses. It's an issue not only to read now and study, but to lay aside for future reference.

House and garage complete; entire grounds laid out and planted for \$7000. Every cost included, except the real estate.

It Will Be Free With the Sunday, Oct. 5th, Issue of

The Los Angeles Times

Don't Miss It!

session of the year yesterday afternoon. The president's address was one of the features.

The auditorium was simply, but effectively decorated with pampas plumes and greenery, while upon the president's table there was placed a huge jardiniere of pink amaryllis.

The Reception Committee and the ladies serving punch were chosen from the Hospitality Committee, which is composed of Misses P. O. Prince, F. B. Elwood, H. D. McDonald, W. W. Parker, W. Malcolm, R. D. Crow, H. J. Grant, C. H. Armstrong, A. C. Silkes, J. E. Dunbar, Fred Avis, J. J. Conrad, P. H. Joyner.

The president gave an interesting and careful review of the club's many activities during the past twenty years. Mrs. Rose closed her address with these words: "My ambition for

the club this year—the twentieth club year—is for the club to take over the feeling that she owns a part of the club home; it will strengthen her club interest and I firmly believe that we shall all be more interested in our club work if we have a goal to work for."

At the close of the address a delightful surprise was given the club by Mrs. Clarence Van Graham, who presented the club with five shares of stock from Mrs. Edward Franklin Brainerd. The gift was enthusiastically received. During the social hour that followed the business session, punch was served by the Hospitality Committee and the Mandolin Club furnished music.

"Literature" will be the subject

next Wednesday afternoon, and "Reading" will be a feature. A prelude of current events will be given by Mrs. W. N. Norcross, and a book review, "A Literary How to Acquire It," by Arnold Bennett, will be interestingly treated by Mrs. George T. Hanley.

RECORDED, Oct. 1.—Service clubs announce that the tide of the in Alhambra has now set in favor of the Serbian army having occupied Dibra and Ochrid. Serbs now outnumber the Albanians and are pushing the latter back.

XXXIIND YEAR.

WATER TURNED THROUGH HEART OF A MOUNTAIN.

Next to the Last Lap Toward End of the Aqueduct.

Passes With Mighty Roar Through Elizabeth Lake Tunnel Down San Francisquito on Way to Dry Canyon Basin Where It Will Stop Until It Rushes Over San Fernando Cascade on Celebration Day.

OWENS River water was turned on at Fairmont reservoir gate tower at 11 o'clock yesterday morning. It passed into Elizabeth tunnel with a mighty roar, emerging at 1:35 o'clock over a fifty-foot fall, seven miles below. Last night the water was traveling at the rate of a mile an hour down the ravine toward Dry Canyon reservoir, which it will reach some time today. Mayor Rose and Councilman Betenski went to Fairmont early yesterday morning with Mulholland, and the Mayor made the long climb to the top of the tower to turn the water. On a previous visit he inspected the gate and tunnel and from the bottom of the gate peered through Elizabeth tunnel.

So straight is the bore that he could see a tiny circle of light at the lower entrance five miles away. Now the lower gate is under water, the tunnel is partly filled, and he said last night that he never expects to be able to look through the tunnel again. When the water was turned on yesterday, the Mayor says, the reverberations were almost deafening at the top of the tower. When the water passed through the south portal of the tunnel it sped beneath the gravel record for hard-rock tunnel driving in America—404 feet in one month. The tunnel through the mountain is 35,470 feet long, 19x21 feet in diameter, and has a capacity of 1000 cubic inches of water per second, or 37,000,000 gallons.

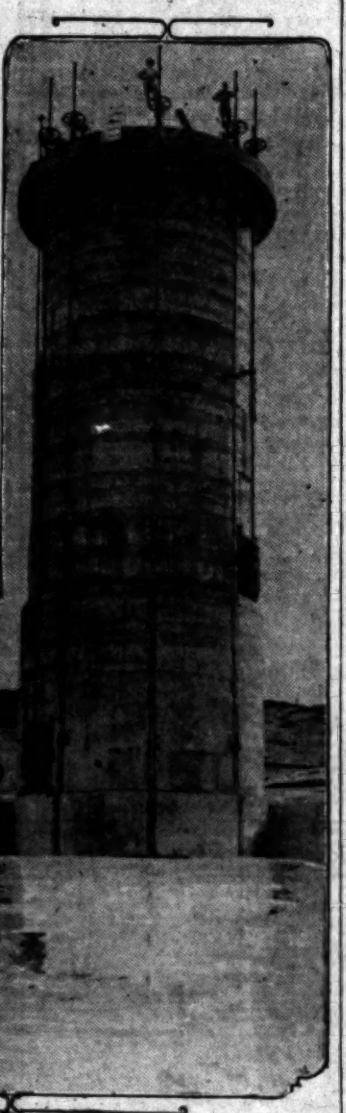

The gate was adjusted to permit a flow of thirty second feet, or 1500 cubic inches of water per second. The reservoir is about ten feet above the lower gate, and the basin can hold a few feet more. After turning on the water the party drove to a point seven miles below, or about two miles beyond the south portal of the tunnel. The water reached that point at 1:30, and continued down a bypass to the ravine canyon city, where it is still interested in the outcome of the case, as the United States Long Distance Company operates a line in the basin but had not been included in the complaint.

With a flow of eighty second feet Dry Canyon reservoir will be filled in about two weeks. From there it will require only two or three hours for it to get to the cascade at San Fernando reservoir, and the end of the aqueduct proper. The last stage of the water's long journey from the lake, nearly 35 miles above, will not be made until November 5, when those who attend the celebration of the completion of the aqueduct will be permitted to see the water emerge for the first time and come tumbling and sparkling down the 150-foot drop.

The Mayor drank from the Fairmont reservoir, and declared the water to be cool, sweet and palatable. He said that the water was better than the water now being delivered in this city. It has no odor nor unpleasant taste, he said, only a slight cloudiness from its recent contact with the reservoir bed and conduits.

A report from Cinco, fifteen miles above Fairmont, received by Mulholland at Fairmont, said the water passing there has entirely cleared, and is running free from debris of any kind or even cloudiness. At an executive session of the Juvenile Committee yesterday, various changes were suggested for the management of the Detention Home. Supervisor Norton has charge of this work on behalf of the board, but the members of the Juvenile Committee are appointed by the Superior Court judge in charge of the Juvenile Court.

SUGGESTED CHANGES. At an executive session of the Juvenile Committee yesterday, various changes were suggested for the management of the Detention Home. Supervisor Norton has charge of this work on behalf of the board, but the members of the Juvenile Committee are appointed by the Superior Court judge in charge of the Juvenile Court.

Fairmont reservoir gate tower, where the water was turned into Elizabeth Tunnel from the reservoir yesterday morning by Chief Engineer Mulholland and Mayor Rose. The gate was regulated to permit a flow of thirty cubic feet per second or 1500 miners' inches.

HEARING TODAY ON DIVERSION.

COLORADO RIVER SUBJECT OF VITAL SITTING. Representative of Secretary of the Interior Receives Views of Arizona and California River Regulation Commission—Construction of Reservoir System Contemplated.

The question of the diversion of waters from the source streams of the Colorado River will be taken up at 10 o'clock this morning in the directors' room at the Chamber of Commerce. The Arizona and California River Regulation Commission, through Willis H. Booth, a chairman of the advisory board, had arranged for a hearing on the important matters with Franklin K. Lane, Secretary of the Interior, but Louis C. Hill, supervising engineer of the Reclamation Service, had been named as Lane's representative.

Hill will meet this morning with representatives of the Imperial Valley, Yuma and other points in California and Arizona. Some of the proposed diversions are of considerable magnitude and the diverting of waters of the upper Colorado from their natural course is regarded as had in principle and fraught with some danger in the future. Other matters that have to be presented, include a survey of the flow of the river and a compilation of lands now under irrigation, or which have established valid claims to water; the withholding of government rights of way until it has been ascertained that new appropriations of water can be honored; the subject of a commission to decide on the rights of Mexico in the waters of the Colorado, and such other subjects as may be pertinent.

The construction of a system of extensive reservoirs in the upper reaches of the Colorado River, as contemplated by the Newlands river regulation bill, also will receive attention.

LONDON PETITION DENIED. Motion Picture Company Scores the First Victory in Injunction Suit in Federal Court.

The petition of Jack London for a temporary injunction against the Balboa Amusement Producing Company, was denied in Judge Welborn's court yesterday. The contention hung on the right of the Balboa Amusement Producing Company to reproduce, in a dramatization of "A Piece of Steak" and "The Sea Wolf," written by London. Most of the allegations in the bill of complaint were based "on information and belief," and it was held by the court that proof of the claims must be furnished. A question of Federal jurisdiction was also involved, as it did not appear from the papers in the case that London had ever received a copyright of the stories, and the necessary documents attested by the registrar of copyright in Washington were missing. It then seemed to be merely an issue between London and the defendants, both citizens of California, and jurisdiction of the Federal would not lie.

MISSIONARIES HARD TO SAVE.

Rescuers' Long and Perilous Task in China.

Los Angeles Boy Tells of Desperate Work.

Trusting in Providence Not Life-Saver There.

An exciting three years was spent in the interior of China by F. G. Yoder, U.S.N., who arrived at the Hayward yesterday. This Los Angeles boy was a member of an official rescue party of the United States government which was sent inland to protect and remove missionaries.

The party was cut off from supplies for six weeks and the members subsisted principally on peanuts and experienced various other hardships and adventures. The rescuers transported 150 missionaries from the danger zones.

"We went into the interior to save the missionaries who had not heeded the warning to come out at the beginning of the recent revolution," Yoder said last night. "We were far inland during the time of the overthrow of the old government. Missionaries have been continuously in danger there for three years. There have been a number of cases where the first of the year in which the lives of foreigners were endangered."

"The names and the locations of the missionaries were furnished to us by the American Consuls in China. We started out to trace them one by one. Often after we had found several hundred miles to find a missionary he would refuse to leave the country, saying that he trusted in Providence to protect him."

"We went to You Chan Fu, the distance of 700 miles, to rescue a missionary and his family. There was a young baby in the family. They refused to leave, and having no authority to compel them to go, we left them. Later we were informed that every member of the family was beheaded."

SLAIN BY OUTLAWS. "Most of the missionaries and, in fact, of all foreigners, were killed by the 'Red Robbers,' who belonged to neither the Imperial nor the revolutionary forces. The outlaws took advantage of the general uncertainty of things to swoop down and murder and rob."

"The thieves generally killed their victims with knives. Few of them were armed with guns. The Chinese are afraid of guns and many of the soldiers shut their eyes and fire at random."

"We went on a long jaunt after three missionaries, but were a little too late in getting there. They were at Ichang, 1000 miles from the sea. They were attacked by the 'Red Robbers' and two of them slain. When we found the third one he was suffering from a fever and we took a doctor to him. His party rescued a woman missionary, originally from New York, from the walled city of Wuhan."

"The rebels had charge of the city and they locked the gates and refused to let the missionary leave. It was a terrible battle and that many of the inhabitants would be killed."

A tug floating the German flag started up the river to the city and was fired on. Then another tug, floating the French flag, tried it and was also fired on. Then we took a tug, raised the American flag and approached the gates. We were allowed to land and to take the woman on board."

ON PEANUT DIET. "It was at Ting Tung Lake that our food gave out and we had to rustle for what we ate for six weeks. The men mobilized 35,000 men at the lake and we were caught there and not permitted to leave. Peanuts were our principal diet for weeks. Occasionally we found a few sweet potatoes and tangerines and a few times we had the extreme good fortune to capture a chicken."

JUDGE'S LOGICAL SMILE. No Difference Between the Old Horse Thief and the Auto Bandit of Today. Remarkable yesterday that in the old days a man who stole a \$10 mule was liable to be strung up to the nearest acorn tree, while those who steal \$5000 automobiles now expect to be let off with a fine as "joy-riders." Judge Willis determined that a man who stole a horse in San Quentin for acting as a "fence" for the disposal of thousands of dollars worth of automobile parts.

The evidence showed that George Temple and other members of the so-called automobile bandit gang disposed of part of their loot to the defendant. Judge Willis is determined, he says, to make an example of automobile thieves and make it possible for auto owners to leave their cars on the street with reasonable expectations of finding them when they return.

PROSECUTION MAY DROP. Charge of Assault With Deadly Weapon Might Be Brought by Stilson Against Belligerent Neighbor. Unless Fielding J. Stilson will agree to a complaint charging Thomas Lee Woolwine with assault with a deadly weapon, the prosecution may drop. This, Stilson says, he is willing to do, but up to now he has been waiting for the night when he might be charged.

The complaint must be filed through the District Attorney's office even if the deputies of Capt. Fredericks do not take a personal hand in the prosecution. Assault with a deadly weapon is a felony generally punished by a term of one to five years in the State penitentiary. In the Woolwine-Stilson quarrel, it is alleged a weapon was drawn but not that it was discharged.

F. G. Yoder, who has just returned from China, where he spent three years in the interior with a party of Americans which rescued a hundred and fifty missionaries and went through many adventures and hardships.

EXCHANGE, SAY RAILROAD MEN.

ROCK ISLAND MAY KEEP OUT OF THIS STATE. Possible Reason Furnished by Agreement on Part of Southern Pacific to Accept Freight for Interchange at Tucson Instead of at El Paso as Now.

Has the Rock Island's long-expected entry into Southern California been permanently forestalled? Many "farsighted" railroad men think so. Reason for their belief is the traffic arrangement which became effective yesterday, whereby the Southern Pacific accepts Rock Island freight and passenger business for interchange at Tucson instead of El Paso.

"The Southern Pacific did not hand the Rock Island 329 miles of additional haul without something in return," said a prominent railroad man yesterday. "My version of the matter is that the Rock Island went to the Southern Pacific and said, 'We'll continue the El Paso and Southwestern into Southern California if you do not make Tucson an interchange point.' The Southern Pacific saw the light and their policy is obvious. That the duplication of lines from Tucson east may be a marked advantage to Southern California in time of freight and passenger congestion, such as are expected to feature exposition year, is generally admitted. It is further pointed out that the routing of Rock Island through trains over the El Paso and Southern between El Paso and Tucson will materially benefit the border country of Arizona and New Mexico and also make it more directly tributary to this city."

Railroad men, however, are mourning what they consider the temporary loss of another transcontinental road for nearly all of them are sure that had not the Southern Pacific granted the Rock Island's plea for interchange at Tucson, the latter road would have been invading the Southland before many moons.

PASSES REDONDO BEACH. Abandoned by Pacific Coast Steamship Company as Port of Call for Northbound Vessels.

Redondo Beach will be abandoned by the Pacific Coast Steamship Company as a port of call for north-bound vessels the 28th inst. South-bound, the Queen will continue to call there Fridays, but no other south-bound vessels will make the call. According to the records of the offices here, Redondo Beach has been a regular port of call for the Pacific Coast Steamship Company for over twenty years.

This drastic readjustment of service will be coincident with the first scheduled visit of the \$1,500,000 liner Congress to this port. Regarding the change, District Passenger Agent Britton said yesterday that it had become necessary, with increased business and bigger vessels, to eliminate all chance of delay, such as sometimes was caused by storms at Redondo Beach. He further stated that the company has been calling at the beach town for a number of years now more out of sentiment than aught else.

TO VIEW PORT SITE. Congressman to Be Escorted to Harbor to See Location for Proposed Naval Station.

Congressman Henry of Texas and his hosts will visit the harbor tomorrow as a guest of the Chamber of Commerce. The party, which will include members of the Harbor Commission and of the chamber's harbor and reception committees will leave the Alexandria at 10 a.m.

On arrival at the harbor, Henry will be shown the site of the proposed fortifications and naval stations. He will be taken to the South Coast Yacht Club for luncheon as the guest of the San Pedro Chamber of Commerce.

In the afternoon he will be taken about the harbor on a launch.

DARK ORIENTAL GAY SLAYER?

Detectives Seek Hindu Religious Fanatic.

Victim Had Delved Into Yogi Philosophy.

Dual Theory of Robbery and Vengeance.

Sensational admissions made last night by investigators who have been unthreading the skein of mystery about the Gay case develop the fact that a Hindu student of Yogi philosophy is suspected. That the black man seen in Mrs. Rebecca P. Gay's office before her death, and in the corridors and other suites of the Herman W. Hellman building, was not an African but an East Indian, is the theory on which the detectives have been secretly working.

Suspects about whom much official noise has been made are declared to have been detained merely as a matter of precaution with the ulterior motive of misleading the real suspect while the officers had an opportunity of increasing their pace on his trail. On the Hindu theory alone do the authorities find a material motive for the killing is concerned, and the likelihood of a professional thug selecting a woman of moderate means for a victim, revenge is the only remaining theory to work on.

Mrs. Gay had been acknowledged to have delved into the mystic phases of far-eastern religions and to have gone deep into the study of Yogi philosophy.

ABANDONS IT. For some as yet unascertained reason she is declared to have suddenly cast aside her interest in Yogi philosophy and its teachings for Christian Science.

Detectives began last night to ascertain whether she had, during her interest in Hinduism, ever procured possession of any Indian temple gem or other sacred object. Romantic as this might at first appear, the officers say, it is conceded that the religious fanatic's of India are relentless where one of their treasures has been lost, or when they feel that their faith has been contaminated by a Christian.

Friends of the victim declare that, while she was interested in the occult, she was not a woman who would parade any religious treasure that might have come into her possession, or a woman who would have been frightened by threats.

What reward the slayer procured for his crime has not been shown, and while the authorities do not depend on the temple-gem theory to lead them to him, they incline to the contention that religious fanaticism may lie at the bottom of the mystery.

THE MOTIVE. The detectives have yet to clear up.

CURTAIN THE "WETS."

Supervisors Pass Two Amendments to Liquor Law; Wholesalers Will Feel Them.

By the addition of two amendments to the county liquor ordinance yesterday the Board of Supervisors curtailed the obtaining of intoxicants in the dry districts.

One amendment forbids Los Angeles dealers from sending their delivery wagons into the dry districts for the distribution of liquor, even if the beverages were ordered from a grocer or liquor dealer.

However, the ordinance does not prohibit a person residing in a dry district from coming to the city and making purchases which may be shipped to him by a common carrier.

Another amendment forbids the sale of intoxicants by druggists doing business in the dry districts, except on a physician's prescription. There must be a new prescription for each sale of liquor and the druggists must keep a complete list of the sales for inspection by the county officers.

The amendments, drawn by County Counsel Hill at the request of the board, were passed without comment.

WITH THE SWANS. Hollenbeck Park Birds Lure Youngster to the Water's Edge and the Angels.

Ever since "Jakey" Scherer, of No. 2214 East Fourth street, had been old enough to toddle around Hollenbeck Park, he had wanted to catch the swans.

When his mother was sick and not watching him, Tuesday night, he ran away from home. He stood at the bank of the lake watching the swans. One came to feed out of his hand. "Jakey" tried to catch it. The swan swam away, "Jakey" started to swim after it—and "Jakey" disappeared.

His body was found yesterday by his distracted father. The swans were floating all around it, almost like a funeral escort.

N. B. Blackstone Co.

A New Crepe de Chine 40-Inch, \$1.75 Yard

The new line of silk dress crepe we show is away above the average in quality; it has the weight to drape correctly and the strength to wear and the price to give it popularity. If you come in time you'll have the advantage of complete color lines to choose from; also white or black. 40-inch, \$1.75 a yard.

All Bathing Suits Reduced 1-3

Buy Bathing Suits today and save one-third of the purchase price. Their season of usefulness is not over—is never over, in Los Angeles.

The most modern styles of mohair, alpaca, silk and satin. \$4.00 Suits at \$2.65—\$18.00 Suits at \$12.00.

And all in-between prices at the same ratio.

Wide Girdle Belts Are Fashion's Latest Fad

Some are of suede leather, some of silk, others of leather and silk combined—all are smart looking to a marked degree. And there's a color to match or to go well with all the fashionable autumn shades. Many are fully six inches wide. 75c to \$5.50.

Sale Pure Linen Huck Towels 25c

We bought this case of towels under price and are going to pass them on to our patrons at the same ratio of saving. Don't neglect to lay in a supply. The towel is a heavy, fine pure linen huck with hem-stitched ends and damask borders with medallion for embroidering initial in. 16x36-inch size and sells regularly at \$4.20 a dozen or 35c each.

These while they last will be \$3.00 a dozen or 25c each. Really it's a bargain.

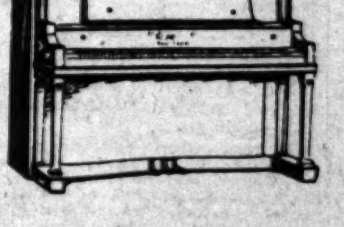

\$1.35 Draperies, 95c

Eighteen pieces, twelve handsome styles, in genuine Sun-fast Draperies for curtains or other hangings. Mostly new conventional designs in color combinations suitable for any room: Green, brown, rose, gold and blue effects. This is the regular \$1.35 quality—50-inch—95c yard.

318-320-322 SOUTH BROADWAY

—AN—Excellent Piano

—at a moderate price UPRIGHTS \$350 Up GRANDS \$700 Up

The Estey

The fact that this instrument is sold by the Birkel Company is evidence in itself that it is a splendid piano. The Estey is sometimes known as "An honest Piano at an honest Price."

The quickest way to realize the rich, sweet, resonant Estey tone is to hear and enjoy it. Its pure, sympathetic voice—its unusually fine singing tone—will make an immediate appeal to you.

The construction of the Estey is unique, the frame being entirely independent of the case. The frame is built absolutely rigid, amply strong to stand the strain upon it. Any one familiar with Piano Construction will realize the significance of this feature.

If you want a durable, moderately priced piano, you will do well to examine the Estey. This instrument is sold at the lowest price possible to sell a GOOD PIANO. And yet it will cost you far less than many instruments which are not up to its standard.

Convenient Monthly Terms of Payment will be arranged.

Geo. J. Birkel Co. 30 YEARS IN BUSINESS IN SOUTHERN CALIFORNIA 446-448 South Broadway

HIGH STUDENTS PLAY POLITICS.

EMBRYO DICTATORS FIT SEX AGAINST SEX.

Nominate One Girl to "Honor Post" That Another's Candidacy for President of School Body May Be Buried Under Landslide of Votes.

Embryo politicians who some day may shape the political destinies of States and nations yesterday utilized an ingenious plan to prevent the election of a girl as president of the student body at the Los Angeles High School.

It was the first effort in the six years of the existence of the organization to elect a girl to the office, and the suffragette campaign was short, fierce and anything but sweet. Since women in this State have been given the ballot, the young women of the High School saw a chance to use it.

Harold Beninger was the only candidate of the male students for president, and until a few days ago it seemed that he would be elected without opposition. The election is made through the house of representatives, composed of 37 delegates elected by the classes. Four-fifths of the membership is male.

When the first hint of a girl entering the student body was noted for president to run against Beninger. And the war was on. Political intrigue that would have done credit to any of the old-timers in the days of the Star and Crescent Society marked the work.

Miss Anna King, a popular member of the student body, was nominated for president to run against Beninger. And the war was on. Political intrigue that would have done credit to any of the old-timers in the days of the Star and Crescent Society marked the work.

A certain amount of impudence, a certain amount of insolence, always bear a drop of a certain amount of vindictiveness—cussedness, if you will. Which is the way we feel exactly toward the tailors who insist on advertising \$50 suits for \$15. We have fought them year after year. We have conquered them in many instances. We're fighting and we're still winning our fight.

When you want a real suit value, also the man whose claims are too extravagant.

Brauer's \$25 suit-to-order special is just a special, that's all.

But it's Some Special.

GOLDEN FRUIT IN SNOWLAND.

California Growers to Invade
New England.

New Railroad Schedules Make
Extension Possible.

Rumors of Sale of Western
Road Persist.

An invasion of the New England markets by the citrus growers of this State is promised through the New York Central's rearrangement of schedule of its fast fruit trains from St. Louis, Peoria and Chicago, to provide for third-night arrival at destination.

Heretofore, fruit trains have arrived in Boston and other New England cities in early morning hours. This has meant that the fruit in many cases was not placed on the market until the fifth day out from St. Louis, Peoria and Chicago. Consequently, the citrus growers have preferred to confine their sale territory to the states west of the Berkshires, where expeditions handling and selling was assured. This has resulted in a near-monopoly of the New England markets by the Italian growers.

With the lopping of one day from the transit period from the Middle West to New England, the sphere of influence of the California lemon and orange is expected to be extended across the Hudson and directly into the stronghold of the foreign growers. It is but natural, as New England will get California fruit at about the same time New York and Pennsylvania will be getting fruit shipped at the same time.

One reason for the numerous delays in the markets arrival of fruit at Boston and other New England cities is that the Boston and Maine, over which the New York Central handles its freight, is a road of heavy-morning passenger travel and but little freight switching is done by it during the morning hours. Freight arriving after midnight is often held until afternoon before placing at the market sheds.

MAN ASSASSINATED. SANTA FE PLANS.

Persistent rumors that the Santa Fe is negotiating for the purchase of the St. Louis and Western, which it is intended to extend the Western from Ft. Smith to Cairo, where it would secure connection with the Big Four, Louisville & Nashville, Mobile & Ohio, and Illinois Central.

If both rumors blossom into certainties, it will mean another transcontinental line occupying a middle ground, as it is between the existing long-haul lines, for the Santa Fe, once into Cairo, would not be content to pause very long in that bottom land town but would effect traffic arrangements which would carry it on north or east, as the case may be.

BIGGEST COFFEE CARGO. BY HARRISON LINE.

When the Harrison Line freighter Atlantic comes its way into this harbor today from Antwerp it will bring with it the potentialities for the largest cargo of coffee ever known on the West Coast. All told, the freight compartments of the big ship will hold 850 tons of coffee, billed from Santos to San Francisco. This is larger by fifty tons than the coffee cargo brought in here some five months ago by the city of Seattle.

The Atlantic, which was formerly in the East India service, will also bring a crew of Lascars, the first members of this Oriental race that have made the winter passage of the Horn in some years.

STEEL GONDOLA CARS. FOR PACIFIC ELECTRIC.

Four big all-steel gondola cars were received yesterday by the Pacific Electric as a part of a \$400,000 order for freight equipment placed by it some months ago. The cars are the latest of the growing industrial development of Southern California. Ninety-six of the same type of cars were reported at Tucson yesterday en route here.

The order included 270 cars of all classes, including the 100 gondola cars, ninety box cars, sixty flat cars, ten stock cars and ten steel gondola cars for the handling of garbage. These last have undershot dumping arrangements for the expeditious unloading of refuse.

Eight New Locomotives.

An order for \$200,000 worth of equipment, including eight new type freight locomotives and three switchers, has been placed by the Santa Fe. The Mikados are to be built by the Baldwin Locomotive Works and the switchers by the American Locomotive Company. The contracts call for delivery within ninety days, so the machines may be available for use during the rush time of the winter. The Mikados represent a new departure in motive power on the Santa Fe, though both the Southern Pacific and Santa Fe have been using them for some time. It is probable that they will be assigned to districts where there are heavy grades.

Telephone Extension.

Application has been made to the State Railroad Commission by the Redkey Telephone Company for authority to issue \$500,000 of its capital stock of a par value of \$1 per share to provide for the extension of facilities within the city of Redkey. The major portion of the sum to be realized from the sale of these shares is to be used for the stringing of supplemental cables to care for the growing telephone demands of the city.

Choice of Routes.

Under an agreement effective yesterday, passengers going to the Orient, Honolulu, Japan, China, and the Philippines on the boats of the Pacific Mail Steamship Company from San Francisco may return home by the Canadian Pacific Steamship Line through Seattle, or vice versa. The arrangement is considered a step by which the Pacific lines will become amalgamated for an interchange of business and consequent offering of diversified routings to the passengers.

THE CITY OF PATERSON.

Daily Press of Thriving New Jersey City Issues Golden Jubilee Number to Boom Home Industry.

A table published in the Press jubilee number shows the following facts about the city of Paterson, N. J.: Population, 121,825; area, 8 1/2 square miles; assessed valuation of property, \$244,000,000; rate, \$1.66. The number of establishments devoted to the various industries, 702; with 35,116 persons engaged; capital, \$46,402,000; wages and salaries paid, \$18,186,000 per year; the value of manufactured products, exceeding \$9,000,000 per annum. Silk manufacturing is the leading industry and employs 24,000 people with an annual wage and salary roll of \$12,570,000, and an annual production of \$46,545,000. The second important industry is iron working, including foundries and machine shops, with 2500 people employed with an annual wage and salary roll of \$2,458,000. Other important industries are clothing, chiefly shirt manufacturing, men goods, thread, jute, cordage, cotton goods, bakery products, lumber and timber, tobacco, slaughtering and meat packing, printing and publishing. Health status—healthiest city in New Jersey with a death rate of 11.283; transportation facilities, 200 express trains daily east and west on N.Y. & N.J. railroads; trolley lines, fourteen; 120 mails received and dispatched daily; schools, twenty-five public, one high, fifteen parochial and numerous private schools; churches, ninety; libraries, one main building and three branches; five hospitals; three free clinics, three orphan asylums, a \$200,000 Y.M.C.A. with 1300 members, a \$125,000 Y.W.C.A. with 1400 members, and a large number of athletic and field clubs. Three large parks covering thirty-six, thirty-four and fifteen acres respectively, fifteen smaller parks and street parks "breathing spots" and one large playground covering twenty-nine acres. Three national banks, five trust companies, one savings institution, \$41,141,000 deposits, \$29,000,000 out of a population of 121,825, there are 7,400 bank depositors. Five theaters and nine moving picture houses. The jubilee number of the Press is a credit to that paper except in one respect. It bears the N.Y. & N.J. union label—a craven concession which practically nullifies the efforts of the Press to give a new impression of Paterson. Get ride of that heading label, that sign of abject slavery, brother of the Press.

EVANS BLOCKS MONEY PATH.

ORDINANCE HELD UP WHEN HE
OBJECTS TO IT.

So the Chief Examiner of the County Civil Service Commission, Who Came All the Way from Wisconsin, May Not Get Salary Until Next Year.

Prof. P. E. Doty, who came here from a lucrative position in the University of Wisconsin to become chief examiner of the County Civil Service Commission, may not get any salary until January, because of the attitude of Commissioners Evans yesterday.

The Board of Supervisors had practically passed an ordinance by which it was possible to pay Doty his salary of \$232 a month, by making him an efficiency clerk of the board.

The ordinance was framed in order that Doty might get an adequate salary when Evans did not have the legal authority to fix a salary for his assistants.

Later, Evans arrived. He expostulated on the ground that he had not been consulted.

"I don't like this idea of having our chief examiner named as an efficiency clerk or commissioner of the board," said he. "I don't like it. I have had an opportunity to look it over."

So to accommodate Evans the Supervisors reconsidered their previous action. Next Monday the same matter will come up again.

In the end, of course, Doty will receive his big salary, dating from the time he accepted the position, but he will have a long wait.

The Board of Supervisors apparently "put one over" on Evans yesterday when they created a new clerkship in the County Treasurer's office at a monthly salary of \$125. The position will be filled and the appointee may or may not be required to take a civil service examination later on.

OUR MINERAL WEALTH.

State's Production, Valued at Over Ninety Million Dollars, is Greatest Ever—Oil Leads.

The total value of raw mineral production in California for the year 1912 was the greatest in the history of the State—\$91,472,545, according to figures just issued by the State Mining Bureau. It compares with a production of \$90,617,566 valuation in 1911, and exceeded that of 1910 in value by about \$2,000,000.

The product of greatest value, as shown by the report was petroleum, of which the yield was \$5,459,240 in value, worth \$1,468,844. The value of the gold production was \$19,713,478, while \$6,074,460 of cement was produced, and \$2,828,040 of copper. Other products whose valuation is placed at over \$1,000,000 for last year are as follows: Lead, \$3,691,010; brick, \$2,940,290; asphalt, \$2,500,000; borax, \$1,122,712. The State also produced \$910,076 worth of natural gas, \$818,584 worth of sand and gravel, and \$799,584 worth of silver.

The list of products is long, there being forty-four in all. Among the more important ones besides those already mentioned, are the following: Clay, granite, gypsum, lime, limestone, magnesite, mineral water, natural gas, paving blocks, pyrites, salt, sand, tungsten, ore and zinc.

CHARGES GROW.

Prisoners Arrested on Charge of Having Disputed the Peace Are Branded Bunch Men.

Fred Buser and Ed Wallace, held in the City Jail, on charges of having created a disturbance, probably will be called on to face more serious charges. Today, both men were identified by Oscar Landerling, a law student, who makes his home at the Golden State Hotel, as men who fled from the City of Los Angeles in a South Broadway poolroom. The prisoners were taken before Police Judge Williams yesterday and will be brought Thursday, when Detective McNamara will, he says, be ready to file charges against them.

Buser was arrested by McNamara yesterday, charged with having operated a "bunco game." Wallace, according to McNamara, works with Buser. Both men, so the detective says, are well known to the police.

INVESTIGATE VERNON DEATH.

Arrests Expected Today in
Mystery Case.

Stories of Mother and Son
Are Conflicting.

Victim Beaten to Death, Say
Medical Men.

Arrests are expected today in connection with the death of Charles Hayes, No. 2045 Junior street, Vernon, who died at the Angeles Hospital early yesterday morning. Investigation by the District Attorney's office and deputy sheriffs tends to confirm the rumor that the man was beaten to death.

Deputy District Attorney Hammon interrogated several witnesses yesterday and, following a conference with Detective McLaren and Deputy Sheriff Wright and Bradford, determined to go into the matter thoroughly today.

The attitude of the District Attorney's and Sheriff's offices was strengthened further during the day by the findings of Autopsy Surgeon Malach, who performed an autopsy on Hayes and found that he died from respiratory suspension, caused by concussion of the brain, the result of a blow.

Circumstances surrounding the killing of Hayes, who was an employee of the E. K. Wood Lumber Company, aroused the suspicions of the officers. When taken to the hospital he was found to be suffering from the effect of a blow on the head, and one wrist was broken, an arm fractured, and his whole body bruised and lacerated as though he had been brutally kicked.

The stories told by persons living in the house with Hayes do not satisfy the authorities.

STORIES CONFLICT.

The unfortunate man was apparently set upon by several persons and brutally beaten.

William Hayes, a brother of the murdered man, who lives on a mountain avenue, Long Beach, thoroughly aroused over the death, is assisting the authorities.

Mrs. Agnes Rowell and her twenty-two-year-old son, W. D. Rowell, who reside at the Junior-street address in Vernon, were brought to the District Attorney's office yesterday and questioned. According to the authorities, the version of the events leading up to the death of Hayes was not the same when told by the mother as when told by the son.

Mrs. Rowell insisted that her son had left the house on the day Hayes died, after Hayes himself had gone out. Subsequently, according to her story, she returned to the house in which he was found shortly before being taken to the hospital.

This version is contradicted by the son, who says Hayes was not in the house when he left and insists that he saw the injuries which resulted in the death.

SECOND DOCTOR.

The first notice the authorities received of the matter came from Dr. H. J. Brooks, No. 4769 Moneta avenue, who was called to attend the injured man.

Dr. Brooks was told to bring bandages and emergency apparatus, as Hayes seemed to be in serious accident. When he arrived at the Junior-street house, he found Hayes in a critical condition. Not willing to handle the case himself, he called in Dr. W. U. Grant, No. 4535 Moneta avenue.

Later, the brother, William Hayes, arrived with his family physician, Dr. William Duffield, who ordered the injured man taken to the Angeles Hospital, where he died without regaining consciousness.

The Junior-street house was almost a wreck when the physician arrived, according to his statement yesterday. The furniture was knocked about and broken, broken bottles littered the room.

Mrs. Rowell, the physician says, was in a state bordering on hysteria and appeared to be in a delirious condition. The authorities believe the secret of the killing will be found near where the injured man was found.

Mrs. Rowell attributes the fatal injuries of Hayes to several possible causes. She says she was awakened about two weeks ago, when he was thrown from a wagon near San Pedro, and that on Monday she found him lying on the street near a saloon liquor-house and called two men who helped her home with him.

WEIRD STORY.

The recital of the events of the night preceding the death of Hayes died in a weird one. Mrs. Rowell says she was nervous during the night and at one time went into the room occupied by Hayes and shot at a man who was peering in through the window.

After the same night, according to her story, she went next door to the home of a man whose name she says is "Lewelland," and there became hysterical and Landerling took the pistol away from her.

Early Tuesday morning, she adds, Hayes was taken to the hospital, and she brought thousands of dollars' worth of goods in bond, to be released later. During September the arrivals of foreign goods were heavy, much of it relating to the holiday trade, in which the tariff has been most appreciably modified.

The changes in the schedules are countless, and it will be a big task for Temporary Collector Frank B. Crutcher and his force of clerks to handle the situation when the bill finally becomes a law. A reapportionment and reassessment will be necessary and an entire new schedule of duty charges prepared. The free list has been greatly enlarged, and it is probable that the monthly receipts of the collector's office will show a decrease of at least 33 per cent. in volume.

Established 1889 Assets Over \$3,750,000

6% -and- Safety

You all know that carefully selected first mortgages on improved property make "gilt-edge" security.

Then when we tell you that our 6% investment Certificates are all backed by this "gilt-edge" security you will have some idea of their safety.

But to give you a complete idea of their absolute safety you should know more about these first mortgages. In the first place, they represent only about half the value of the real property. And in almost every case the mortgage is on the home of the borrower, making it a moral certainty that the borrower will repay the loan rather than sacrifice his home. This will explain why we have only about \$2500 worth of property taken through foreclosure, although we have nearly \$4,000,000 loaned on improved property valued at more than \$9,000,000.

From these facts and figures you can easily understand why no one has ever lost a dollar invested with us.

For a safe, sure 6%, invest your money in our \$100.00 Certificates. Call or write for complete description.

RY CHRISTIAN WARNACE

METHODIST CONFERENCE.

Formal Opening of Annual Convention.

Organization Is Complete; New Officers.

Disciplinary Questions Up for Decision.

The formal opening of the annual conference of the Southern California conference of the Methodist Episcopal Church, at Long Beach yesterday, was attended by about 175 members, and perhaps half that many of the lay delegates.

Preceding the business session, Rev. F. Watson Hannon, D.D., of Drew Theological Seminary, delivered the first of a series of evangelistic addresses, the theme this morning being "The Minister's Message." He also led the conference devotionals, after which the sacrament of the Lord's Supper was observed. Bishop Hughes being assisted by Rev. John Lloyd, superintendent of the Fresno district; Rev. F. M. Larkin of the Los Angeles district; Rev. Alfred Inwood of San Diego, Rev. F. M. Miller of Pasadena, Rev. H. I. Rasmussen of Long Beach and Rev. Vernon E. Combs of Pasadena.

Organization of the conference followed and after the roll call the conference elected as officers: Rev. E. J. Lawood, conference secretary; Rev. A. W. Rasmus of Rialto, statistician; Rev. E. Ray Moore of Long Beach treasurer, and W. F. Wank of Los Angeles, railroad secretary.

Rev. George A. Hunt, a young pastor, was designated as conference evangelist. W. C. Geyer, I. L. Speller and N. J. Burton were named as members of the board of stewards.

THE BAR. The first ten rows of church seats were designated as the bar of the conference, being reserved for members, visitors being relegated to the rear.

A federation committee, nominated by the district superintendents, was approved. It consists of W. C. Geyer, C. D. Lewis, Eli McClain and E. J. Lawood.

On motion, the standing committee of the conference were re-elected with the following exceptions: S. J. McConnell was named on the conference Relations Committee, to succeed John Oliver, now district superintendent, and R. D. Hollington was added to the Education Committee, the conference voting to increase that committee instead of dropping from it Dr. A. W. Adkinson.

That course had been suggested, but when the fighting superintendent of Arizona missions arose to suggest that no resolutions be adopted, he was left off the committee. The conference agreed with him and increased the number.

Following completion of the organization, Bishop Hughes introduced a large number of visitors from other conferences, causing a hearty laugh when Rev. W. A. B. Geyer, pastor of the First Church of this city and now pastor of a church in Salt Lake City, was introduced as a representative of the Mormon church.

MEMORIAL SERVICE. The most interesting and yet sorrowful part of the morning program was the annual memorial service over which Dr. Ezra Healey presided. One member of "the conference died during the year, Dr. John R. Fisher of Fresno, and death took three ministers' wives, Mrs. Mary Jarvis Lawrence, wife of Rev. C. H. Lawrence of Los Angeles, and one of the ministers of the Empire Day Center, Mrs. Ada Burge, wife of Rev. A. A. Burge, of Santa Monica, and Mrs. J. T. Coole, wife of a Los Angeles pastor.

Rev. Clyde Crist of Los Angeles gave an impressive memoir for Dr. Fisher, who joined the California conference in 1881, and who was respected for two important features of Southern California Methodism—the Missionary and Evangelical Society and the Methodist camp-meeting organization, now located at Huntington Beach. He was former pastor of the Second Church, Los Angeles, and was afterwards district superintendent of the San Diego district.

Superintendent Larkin gave the memoir of Mrs. Burge, Rev. S. J. Taylor for Mrs. Lawrence, and Dr. Healey for Mrs. Coole.

WORK TODAY. Yesterday's session was mostly routine and the real work of the conference will begin today, when disciplinary questions will be taken up.

The passing of young men just entering the ministry and who must pass conference examinations, and the ordination of deacons and elders. Yesterday afternoon's session was devoted to anniversary celebrations of the Board of Home Missions and the Home Missionary Society, the afternoon being taken up with an address by Dr. A. E. Leonard, secretary of the Board of Foreign Missions of New York, Dr. Leonard presiding instead of Rev. Robert Fisher, who is ill in the north.

Dr. Leonard devoted his talk principally to the growth of the negro part of the church, there being at present 200,000 communicants. He also spoke of the growth of the Board of Home Missions and Church Extension, which has spent \$20,000,000 in the work and at present is spending \$1,000,000 yearly in church extension work. Last night the First Church was packed to the doors by those eager to hear an evangelistic service conducted by Dr. Hannon.

This conference has started out auspiciously and all who have arrived are comfortably located. About 150 persons are quartered at the Hotel Tanager, a number are at other hotels, and 100 are being cared for at private homes.

INGLEDWOOD ACRES. The James R. H. Warner Company reports the sale of eight half-acre ranches at Inglewood Acres, the first of the month.

Three of the buyers bought single half-acre pieces, the others purchased an acre piece. The report follows: Half-acre pieces—A. F. and C. C. Baker, \$115; F. H. Bridge, \$175; and Pearl E. Moore, \$175. Acre pieces—Nelson, \$1030; E. and P. W. Kaufman, \$1030; J. Suttibaugh, \$1000; Edward Toedter, \$1030; and W. F. Jones, \$1030. The James R. H. Warner Company also reports the sale of three home sites in Brentwood, as follows: To C. Krenier, \$1000; to Twenty-fourth street, \$1030; to E. Miller, lot on Twenty-fourth street, \$1030; and to E. Miller, lot on Twenty-fourth street, \$1030.

Mrs. John L. Hooper.

Who is training one hundred young persons from seven of the leading Methodist churches of Los Angeles and nearby cities, who will present "The Torch Bearers," an elaborate missionary pageant, next Tuesday evening, at the opening of the annual meeting of the Pacific Branch of the Woman's Foreign Missionary Society.

PAGEANT OF THE TORCH BEARERS.

SEVEN METHODIST CHURCHES IN PRODUCTION.

Extravaganza Will Open the Annual Meeting of Pacific Branch of Woman's Foreign Missionary Society—Many Nations Represented in the Cast.

"The Torch Bearers," an elaborate missionary pageant, will be presented by 100 young people in costume on the evening of the 7th inst., at the opening of the annual meeting of the Pacific branch of the Woman's Foreign Missionary Society at the First Methodist Church.

Seven of the leading Methodist churches in Los Angeles and nearby cities will be represented in the cast. Mrs. John L. Hooper, branch superintendent of the Young People's work of the Woman's Foreign Missionary Society, assembled the cast and has directed the rehearsals. In her quest for talent she visited the different churches, and a number of them, her home is at No. 2632 Pasadena avenue.

Angels, heralds, pilgrims and women of the various nations of the world will be represented in the cast. In the aggregation will be seen the costumes of India, Japan, China, Korea, Burma, Africa and of the Moslems. The music will be furnished by a hidden choir.

A prologue will introduce the women and children of the nations, and will tell of "child marriage," the sacrifice of women, and other wrongs which the spread of the gospel is correcting in heathen lands.

One of the special features of the pageant will be a song, "He Halleluiah All," the chorus of which will be sung in five different languages. Production of the pageant will be preceded by an organ recital by Mrs. R. T. Hall. At the conclusion of the performance Miss Evelyn Hadden, a missionary from India, and Miss E. Bayle Hall, a missionary from China, will discuss the subject, "What Foreign Missions Mean to Me."

St. Patrick's.

PARISH BAZAAR AND FAIR OPENS.

TEN-DAY CAMPAIGN STARTED TO REDUCE CHURCH DEBT.

Judge Williams of Police Court Is Speaker at First Evening's Entertainment—Mayor Rose to Speak Next Saturday Evening—Sacred Concert in Church Sunday Evening.

A parish fair, which it is hoped will materially reduce the debt which St. Patrick's Roman Catholic Church is burdened, was opened on the parochial grounds last evening with much enthusiasm. A large tent has been pitched in which a number of booths are housed, devoted to the sale of fancy work and all that will attract the debt-reducing dollar.

These booths are in charge of the various societies of the parish—the Holy Name, Holy Angels, L.C.B.A., Altar Society, Y.M.C. and the Young Ladies Society. The parish hall will be used during the fair for musical entertainments and dancing, and next Saturday afternoon will be known as children's day, a special programme being prepared for them.

Police Judge Williams made the address, opening the fair last night, being introduced by Father O'Reilly, rector of the parish. Mayor Rose will make an address next Saturday night. The fair will be continued every week day until October 11.

A sacred concert will be given in the church next Sunday evening, the cast including Misses Theresa Goss, Irene Swarthout, Gertrude Neelan, Mrs. A. J. Dyer and A. T. Williams and P. A. Bromby. The first two young ladies mentioned are graduates of the Manual Arts School. Mrs. Dyer has been active in amateur theatricals in the parish for a number of years. All the parts were well taken, reflecting credit on the training of Mrs. O. Reilly, who coached and drilled the young actors.

A Big Cipher. LOS ANGELES, Oct. 1.—[To the Editor of The Times:] The Examiner of this date in an editorial showing the evils that may result from the failure of the Wilson administration to supply the country with a sufficient number of warships, exclaims, "What answer will these public men give to the nation when, in some hour of humiliation, shame and bitter defeat and dishonor, a betrayed and angry people demand of them why they thus invited disaster and dishonor?" Think of it: "what answer?" Why, the one sole sufficient and all comprehensive reply will spring to the lips of every man of honor and answer is sought: "I am a Democrat. And what hope has any one of us of being returned to Congress, what possibility of a reelection of last fall's success, if we shall fail to conciliate the ignorance and the anarchism of the country by proving that we have left undone everything that the Republicans did, and have done all that the Republicans refused to do."

A Democrat who does not know enough to make that reply has but to cultivate hypocrisy, and automatically he will become a "Progressive." Both parties are as one in their "fundamental principle," a passion for office; they agree in their method of securing it, appealing to prejudice, ignorance and anarchism; they differ mainly in two respects—the Democrats are too ignorant to dissemble; the "Progressives" are too hypocritical to do anything else. The Democrats imagine that their success would benefit the nation; the "Progressives" care for little so long as their efforts create disturbance and spread unreasoning dissatisfaction, and so vent their spite and gratify their malice.

G. F. M.

GETS WANTED MAN. Deputy Sheriff Sepulveda located A. Flores, who is wanted in Santa Paula for assault with a deadly weapon, yesterday. He found him near the Plaza, recognizing him from the newspaper description sent by the Santa Paula officers. Flores is charged with cutting an officer when a raid was made on a "blind pig."

Two Pair of Trousers with these Boys' Knicker Suits at ... \$5

—They are all-wool.
—Trousers full-lined.

New Furs of Extraordinary Beauty for Trimmings Have Arrived

Furs are to be much utilized in trimmings this fall—as every woman who observes must have noticed, from its great use during the Fashion Show.

To meet the inevitable demand, we have assembled a stock of unusually good furs for trimmings, and in unusually wide variety.

For example—We show both real and imitation furs in white, black, brown and gray, 1/2 to 4 inches wide; in black and brown opossum. Coney, black and gray squirrel, natural skunk, red fox and a splendid variety of moutlons—in canary, tan, gray, white and sable.

—Heads of these various animals may also be obtained for trimmings. —Trimming, Broadway Annex.

Stylish Suits for Stout Women

There are many women whose figures are larger than the average, who have a settled conviction that they cannot buy a ready-to-wear suit.

So they go to a tailor, and pay two or three times what they would have to, if they could buy a tailored garment that really fitted.

We Fit Stout Women —perfectly, stylishly and economically; we make a specialty of suits for women with small hips and large bust—or large hips and small bust.

—Materials in these suits are tasteful; workmanship is irreproachably good; style is up to the minute; yet you need pay only \$30 or \$35, or thereabouts, for one of these excellent garments.

—Come in and be convinced. —Garments, Second Floor.

New Gloves for Fall Wear

One's gloves should be selected this fall with more than usual care, for the many colors that will be worn make it imperative to have only good gloves—and of the right shade.

—Our assortments now are absolutely complete—comprising Fern's, Fown's, Steinberg and Kallisher, Ireland, Barco and other well-known makes, in every staple and fancy style of finishing. Both long and short gloves, with long, medium and short fingers, will be found in every possible shade and size.

—Glove Section, Main Floor.

Moire Silks, Rich and Distinctive, Are Here

Among the lighter silks, moire is in great demand this autumn; and it makes up to such decided advantage that you will be glad to learn this news—and the added news that we have a stock absolutely complete, both in black and colored moire:

Yard-Wide Moire Antique —in black and every preferred color\$1.50 Silk and Wool Bengaline —Moire; 42 inches wide; all new shades, including black\$2.50	Moire Bengaline —somewhat heavier in quality; very rich and handsome; in black and colors\$2.50 Swiss Moire —A French silk, in black; 40 inches wide; \$4.50 and	Moire Arabesque —44 inches wide; in every shade, and black\$4 French Moire Bengaline —42 inches wide; in black, at \$2.50, \$4 and \$5	Black Moire —In 36-inch width; at \$1.75, \$2 and \$2.50 —Silks, Broadway Annex.

DUCK SEASON IS NOW CLOSED.

Huntmen Got in One Day of Shooting.

Season Opens Again in Two Weeks.

Will Close on the First of February.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON BUREAU OF THE TIMES, Oct. 1.—[Exclusive Dispatch.] Shooting ducks, legal today, will be illegal tomorrow (Thursday).

The President, shortly after noon today, signed the proclamation which puts into effect the regulations for the protection of migratory fowl as provided for in the agricultural appropriation bill passed at the last session of Congress, and drawn up under the direction of Secretary of Agriculture by a commission of the Biological Survey, appointed for that purpose. The regulations are now in effect. The country is divided into two zones, No. 1, the northern, or breeding zone, and No. 2, the wintering zone, in which California is included. For California the regulations include the following provisions:

A daily closed season all migratory game and insectivorous birds from sunset to sunrise.

THE DATES.

A closed season on migratory insectivorous birds shall continue to December 31, 1913, and each year thereafter shall begin January 1 and continue to December 31, both dates inclusive.

A five-year closed season to protect wood duck, band-tailed pigeons and some other varieties not common in California.

The open season in California is as follows: Water fowl, October 15 to February 1; rails, protected for five years; coot and shore birds, including black-breasted and golden plover, jack snipe, greater and lesser yellow legs, October 15 to February 1; all other varieties of shore birds protected for five years.

OFFICIAL STATEMENT.

In an official statement, it is explained that:

The regulations provide the details necessary to carry into effect the law approved March 4, protecting migratory game and insectivorous birds. The proposed regulations were first published on June 22 and, after being made public for three months and a number of hearings held, were carefully reviewed before adoption by the department.

"The whole country has been divided into two zones. Zone No. 1, the northern zone, comprises the States north of latitude 40 and the Ohio River, and zone No. 2, the States south of that line. In zone 1, the seasons for wild duck, mallard and other shore birds generally open on September 1 and close in December. Woodcock have the months of November and December.

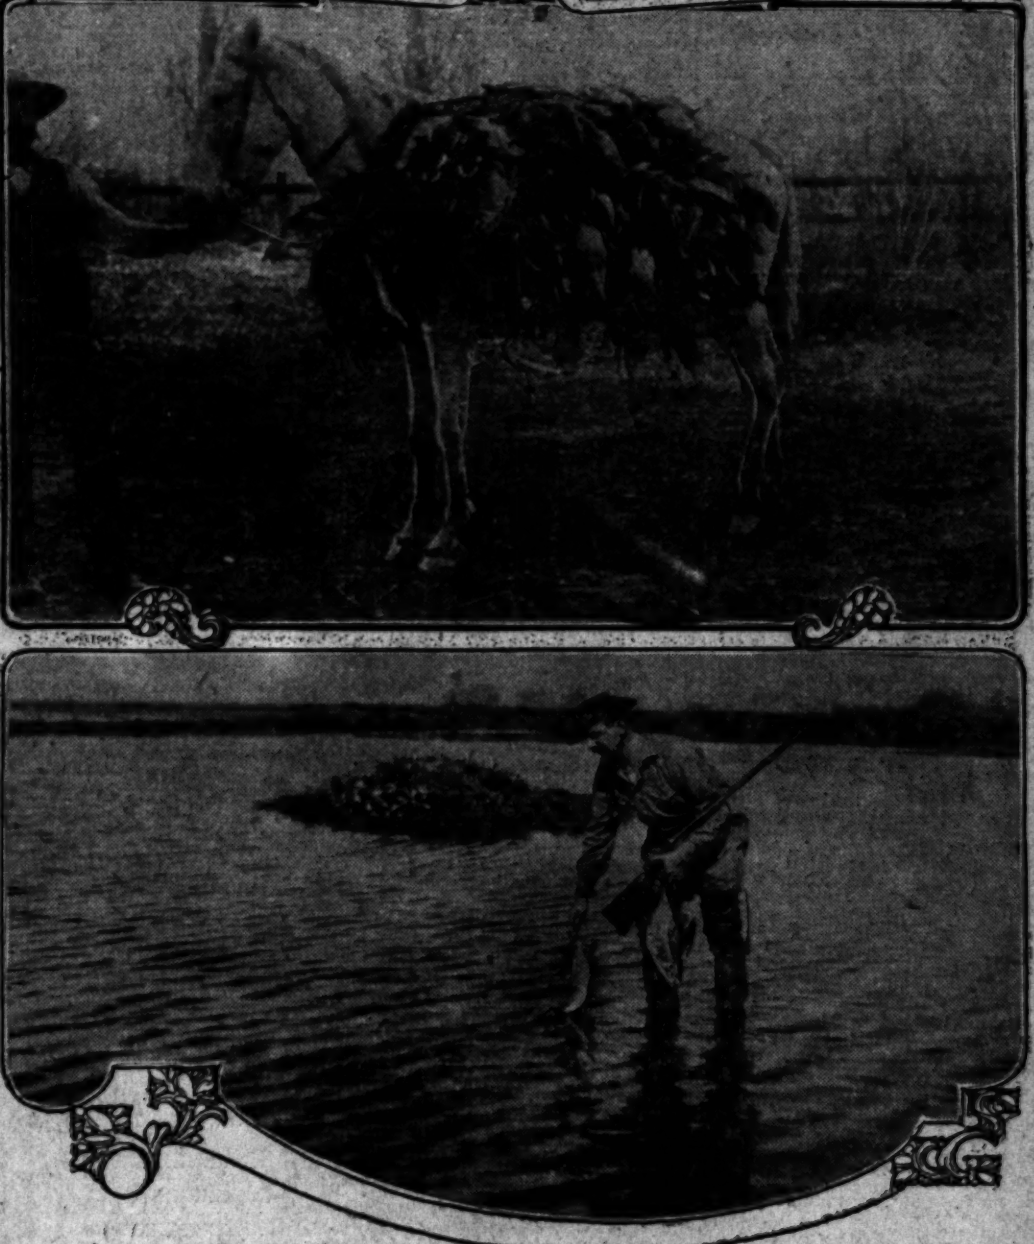

THESE ARE PROTECTED.

"Insectivorous birds are protected throughout the year. Species like the smaller shore birds in danger of extermination, are protected for five years. Shooting after sunset and before sunrise is prohibited and likewise shooting at any time on the Missouri River between Bismarck, N. D., and Nebraska City, Neb., and on the Mississippi River between Minneapolis and Memphis.

"The new regulations differ from those originally proposed in several details. Reed bird shooting is prohibited in Delaware to conform with restrictions in New Jersey and Pennsylvania. Wood duck is prohibited for five years in five additional States in zone 1, and also in California and Kansas in zone 2. The shore bird seasons on the coast of New England and on Long Island have been made uniform and all shooting eliminated prior to August 15. On the Pacific Coast the seasons in Washington and Oregon have been made uniform, opening on October 1. "Arrangements were made to notify promptly all State Game Commissioners as soon as the new law was in effect and plans have been begun to organize a force of wardens in the field."

T. S. Palmer, Assistant Chief of the

DUCKS DROP BY THE DOZEN.

HUNTERS BAG RECORD BUNCH OF WATER-POW.

Custom of Keeping Water on Ponds All Year Round Proves a Success and Many Ducks Were Bagged During the Day—Frank Season Proves a Success.

BY R. A. WYNNE.

Two thousand of the 2000 members of the various gun clubs of Los Angeles and vicinity yesterday morning enjoyed their first duck shooting of the present season.

All reports brought back to the city yesterday afternoon by the tired but enthusiastic hunters showed that the ducks were unusually plentiful and that the plan of keeping the ponds at the various clubs filled throughout the summer months had been of great advantage.

The mix-up concerning the signing of the new migratory bird law, which would have set back the season to October 15, did not keep very many from enjoying the shooting. It is estimated that perhaps 200 hunters turned back after starting for the preserves, and as many more were discouraged about preparing to go. The thousands of others started early, and when they heard of the reported signing of the law they relied upon their club officials to notify them if they were in danger of becoming law-breakers.

THE GLAD NEWS.

At the majority of the hunt clubs the members kept open house until

JOE LEVY TRIES TO GET RIVERS A CHICAGO FIGHT.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Oct. 1.—[Exclusive Dispatch.] Joe Levy, manager of Joe Rivers, Mexican lightweight, arrived in the city today, handling here just as Willie Ritchie, lightweight champion, left for the East to fill a week's engagement and also train for his battle with Leach Cross there October 28. Levy left Rivers in Los Angeles, where he is awaiting instructions.

Just now the Mexican is matched to meet Frankie Russell in New Orleans before Dominick Tortorich's club October 23, but Levy said today that he would be willing to match Rivers around here if he got suitable terms before that date.

Johnny Dundee, the Eastern lightweight star, passed through the city this morning on his way to Los Angeles, where he is to meet Joe Asave-do, the young man who recently bested Ad Wolgast in a ten-round contest.

WOLGAST MEETS RITCHIE IF HE BEATS BAT NELSON.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO BUREAU OF THE TIMES, Oct. 1.—[Exclusive Dispatch.] There is not a chance of Packy McFarland accepting Willie Ritchie's offer for a ten-round bout at Milwaukee, under the conditions laid down by the champion, 115 pounds ring-side. This was made known by Packy's friends today after a talk with the South Side Irishman. McFarland says he will not make ring-side weight for any one at any time, even though the championship is at stake, and he will not consider such a match.

After this announcement the Milwaukee promoters who were trying to get him to fight Ritchie turned to Wolgast, and he came through with the hurry-up message to the effect that he would fight he champion, tomorrow if necessary, under any conditions for any amount. This led the backers to go ahead with the preliminary arrangements, and Ad will be Willie's opponent provided he comes through with his match with Battling Nelson at Milwaukee October 13 without damage. He then may be matched with some other good lightweight, with the champion coming next.

ANGELS ARE SCANDALOUS.

Rudely Knock Another Prop from Under.

Perritt Holds Tigers to a Measly Tally.

Page Puts Ball Out of Sight for Homer.

BY HARRY A. WILLIAMS.

Dillon's men again behaved in a churlish manner with the bat, and a great fear is beginning to possess the friends of Hogan and his employees that the Tigers may not get any nearer to the pennant than "Doc" Cook did to the North Poie.

The score was 4 to 2, with Los Angeles on the juncos and. The result was in perfect harmony with the hitting of the two clubs, as Los Angeles punched the pill just twice as often as Venice.

If this thing keeps up a couple of days longer the continuing concern of the Tigers will not be to win the pennant, but to finish in front of the Angels.

However this may be, those fans who have gradually settled into a state of coma and curled up their toes are missing one of the all-time series of the season. The present fight between the two local clubs, were it a couple of months earlier, would have the fans down on their hands and knees trying to hit the iron knobs off the Comiskey chairs.

"Poli" Perritt and Elmer Koestner, disciples of the anti-fist school of athletes, were the opposing pitchers. "Poli," who appears to be the more delicate of the two, had much the better of the argument; so much so, in fact, that Koestner was not permitted to pitch the last inning. Cecil Ferguson, he who positively picks the Giants to win the coming world's series, and does so right out loud, operated the ball in the ninth in a manner to not the opposition one.

It is Howard who enlivened the game with much fine fielding, thereby causing the comment that he looks entirely too fast for St. Louis.

HARL COFFED AGAIN.

Harl Maggett opened the festivities with a neat single to right. Howard sacrificed him a notch. Then, whiplash, Harl was nipped off second for the second time in two days. This time Koestner was the nipper. This so discouraged Hube Ellis that he popped to Brashers.

The Tigers then boldly took the lead with one run in the second half. Perritt prefaced his performance—and that isn't such a poor expression—by passing Carlisle. Kane sacrificed as behooved him. Johnny seldom fails to respond to the right kind of a bat-hoove. Then something happened that caused Perritt to become bowed with grief. Bayless skinned one just out of Polle's reach, and which required the immediate attention of E. Johnson. E. J. was forced to come far in for the grounder, and had no time to gauge his throw. Bayless had the ball beaten. Johnson's throw pulled Howard over on his chin, and Carlisle cantered in before the begrimed Ike could get the gravel out of his mouth. Brashers jammed the ball into a double play, of which

CONNIE SCHOoled RED SOX FOR LAST SERIES.

Howard Fahey, Last Season Utility Man for Athletics,
Says Mack Acquainted Boston Players With New
York's Style in Secret Meetings—Local Fans and
Players Give Their Opinions.

BY HARRY A. WILLIAMS.

THAT Connie Mack had a hand in winning one world's championship for which he never received credit is the rather startling statement made yesterday by Howard Fahey, who last season played the utility infield role for the Athletics.

Fahey refers to the 1913 championship which is officially credited to the Boston Red Sox under the leadership of Jake Nash.

Mack secretly schooled the Red Sox for the big battle with New York, according to Fahey. Having directed his club against the Giants in one world's series, Mack was familiar with every angle of the McGraw style of play. He knew where the Giants were most vulnerable and the surest method of combating their attack.

Fahey says that he imparted this knowledge to the Boston Red Sox in a series of secret meetings during the last series between that club and Philadelphia. He believed that this was of tremendous aid to the Red Sox. The series was hard-fought and generally close. It may be that Mack's fine hand was the deciding factor.

Youngster May Pitch Opener.
Now that the sagacious scheme of the Athletics is to use this knowledge, Fahey can see nothing but Philadelphia in the forthcoming series.

Having recently had "Sleepy Hollow" afflictions himself, he may be slightly prejudiced, but in view of the present state of the public mind, his remarks are nevertheless timely and sensible.

I see that it is taken for granted that Mack will use Bender in the opening game, said Fahey. "That is purely guesswork. There is just one thing we know Mack's plans for the opening game, and that is Mack himself. When it comes to matters of that kind a sphinx could talk Connie Mack to death. He is an expert at keeping his own counsel. That is one secret of his success. He has the other fellow guessing and guessing to cross him nine times out of ten."

It would not surprise me to see Mack start Shawkey, Brown or Houck in the opening game, and neither would it surprise me to see any of them win.

The pitching staff of the Athletics is regarded as a two-man affair. Bender and Plank is all that you can hear. This is a mistake. If Mack had not had other good pitchers to back up this pair he would not have won the American League championship.

McGraw and Lapp, behind the bat, I think, will prove a match for Meyers and McLean.

In offensive strength there is little room for comparison between the two clubs so far do the Athletics overshadow the Giants.

Furthermore, Mack has one of the smartest teams ever put together on a ball field. Every man on the club is a student of the game. Mack holds frequent meetings, and drills his players on the field. Every man on the club is a signal thief. When a man is not playing he is on the bench or coaching line. This is almost impossible to play a game against the Athletics without making a complete switch of signals at least once.

"Chief" Meyers,
The Southern California Indian, who will catch for the Giants in the world series.

CHAMPIONS IN REVIEW.

An Analysis of the Playing Strength of the Philadelphia and New York Baseball Clubs.
BY IRWIN M. HOWE.

HAVING discussed the outfield, infield and pitchers, we now turn our attention to the men who hold down the backstop behind the bat. Without the clever co-operation of the catchers the number of star pitchers would be surprisingly reduced.

The batting average for the season of the five catchers discussed herein is shown herewith. It is seen that Meyers leads the other four by a wide margin. Thomas and McLean have been hitting at their true form. This being Schang's first season, his average looks good. Lapp, a strong factor in former years, has fallen off unaccountably this season.

Both New York and Philadelphia are well equipped with catchers. John Meyer, the star being the best all-around backstop in the league, and will do all the receiving for the Giants unless injured, and for an opposing player to take charge on in. Reinforced by McLean, Wilson and Hartley, the quality and consistency of his catching staff are the least of Manager McGraw's troubles.

With Thomas, Lapp and Schang all in line for duty it is uncertain who will be chosen by Manager McGraw to carry the world series burden for Philadelphia. In previous years Thomas has always caught Bender and Plank, while Lapp worked with Coombs. Now with Coombs out, Thomas showing signs of wear and Schang doing sensational work, the order of assignments must necessarily be changed.

Lapp and Schang are probably equal to Meyers as backstops, but are away below the New York man in swinging the war club. Thomas is not as good as he was two years ago, but he and Bender, or Plank and either of these three does not handle the ball as well as the other, but taking into consideration Meyer's hitting, the Giants have a shade the best of the catching.

Base stealing is not likely to cut much of a figure in the final result of these games. All the New York pitchers and three of the Athletics are known for their speed. They will be closely and under such conditions any of the catchers named will do the best.

Duck Season Closed.

(Continued from First Page.)

Biological Survey and chairman of the commission which drafted the regulations, has a home at Los Angeles, and also one at Berkeley. He said today:

MANY HUNTERS.
"California has about 140,000 sportsmen and Los Angeles is a fairly representative community as a sporting center, 2 per cent. of the entire population taking out hunting licenses. Under the present law the duck season is divided according to the section of the State affected. Southern California, except Santa Barbara, being in game district six, where the open season has been from October 1 to March 1. The new regulations make the season the same for the whole State from October 1 to February 1. No State has a longer season than three and one-half months. As the regulations could not become effective until the proclamation was signed by the President, any hunters in Los Angeles who went out this morning would be within their rights, under the State law. Now, of course, this is changed for the regulations were effective as soon as they were signed and promulgated, and we wired the fact to the Fish and Game Commission as soon as the President affixed his signature to the proclamation."

PING BODIE WILL APPEAR ON STAGE.

(BY WIRE TO THE TIMES.)

CHICAGO, Oct. 1.—[Exclusive Dispatch.] Ping Bodie, fence-buster of the Chicago White Sox, today exhibited a signed contract for his appearance in a short monologue on the stage of a local theatre. Bodie will make his debut as an actor, if his plans do not fall, about the time of the close of the Chicago baseball series. Bodie, according to the terms of the contract, will receive \$500 each for four days' work.

Fence-smasher has not decided on the nature of his offering to the waiting public. The chances are he will warble a stein song and do a little dancing act, knowing that just to prove that he is able to score a hit in footwork. Bodie is admitted to be a fence-warbler, even by his close associates, who seldom admit to Bodie that he can do anything.

LONG BEACH TO PLAY WHITTIER.

WHITTIER, Oct. 1.—While the High School football contests will not open in general till October 11, Whittier High and Long Beach High will, by special arrangement, open the season here next Saturday. The work between these teams last year gives special interest to this contest. Coach Fair has had his boys steadily at work this week, knowing that Saturday's game would necessarily be one of the big battles of the season. There is no doubt but that the team is in better shape than it was at this time last year, but Coach Fair is not relying on mere confidence to win. The boys expect to meet a hard proposition and expect to meet it by hard, consistent work. The game will be played on the college grounds, Hadley Field.

PETROSKY WILL FIGHT.

SAN FRANCISCO, Oct. 1.—[By A. P. Night Wire.] Jimmy Clabby and Sal Petrosky, middleweights, will fight twenty rounds next Friday night, as originally announced. After thinking it over, Petrosky's manager with drew his ultimatum today, and accepted the referee named by the club which will stage the bout.

FIRST VICTORIES ARE OF GREAT IMPORTANCE.

Trojans Must Beat Bear Freshmen to Be Successful. Tigers Working Hard, but Lack of Veterans Gives Squad Crude Look—Oxy Team Good on Offense, but Defense Is Weak.

BY OWEN R. BIRD.

THE first important football game on the schedules of the southern colleges came one week from Saturday, when the Trojans meet the California freshmen at Berkeley. In this game the U.S.C. squad is to receive its first test of fire and brimstone, away from the home crowd and under rather adverse conditions, such as always being the case in northern games. If Pat Higgins can win this game, the Trojans team will be easily 25 per cent. more efficient during the remainder of the season. First victories mean everything in the psychology of football, or any other form of intercollegiate athletics for that matter. They give the team poise as nothing else will, and best of all, develop spirit—something all else and done—spirit is the subtle force that wins most of our great college battles.

The game with the California freshmen is not going to be any easy matter, as the Bear kiddies have a very strong squad, full of experienced players gathered from the best high schools in the state, and as the Trojans are their one big contest of the year, it will be the first showing of the Trojans on foreign ground, and first impression, like first victories, mean everything. So it can be readily seen that a great deal rests on the outcome of this clash. The California freshmen have been in practice two weeks longer than have the Trojans, so their team work should be more polished from the point of view, but we can safely say that Scheffer's men are going up against the hardest proposition since the Trojans were defeated by U.S.C. Higgins has a great crew, and they can play real rugby, but, best of all, there is a wonderful spirit of fight in the team.

Varsity Undecided.
Before dropping the Rugby situation and diving into the wilds of the Tiger lair, I would like to state that the Trojan varsity will never exist until the day of the great event, the plan of Coach Higgins to keep the make-up of his first team a secret until the game, and the fact that the squad is to be called together, and just before going on the field the men who are to play are to be named.

So don't run around and get hatered heroes of the second team, the steady blue eye of one Pat Higgins may have been on you for the past week, and you may see him in the big struggle, when least expecting it. Under this regime it is up to all hands to work every day, and to win without end—the best men, the best with the spirit and the nerve will make up the Trojan teams this year, so get these assets and play in a big game.

Three Tiger Teams.
Now for the Tiger. He is growling and showing a goodly expanse of fang and claw. Three teams are being driven at top speed every night, up and down the field, with the barking quarter-backs driving their men like so many rally slaves. Tomorrow may be devoted to form work and strategy, but no scrimmage was called—no it would be a hard matter to try and give an adequate idea of how the men are shaping up, as scrimmage is the one and only thing capable of giving a correct idea as to caliber.

However, Coach Pipal seems more than wise in perfecting the various methods of form before starting hard scrimmages, as with the awkward freshmen on the squad, somebody would probably get "scuffed off" during the afternoon work. It might be well to remark right here, that all of the more serious injuries in the American game have been the result of awkwardness, undertraining or overwork, the first two being causes mostly credited with misfortune.

Crashless Contingency.
In speaking of the Oxy team, we would have to deal with the squad as a whole, as not enough work has been done to allow the ability of any one man to stand out above the rest. Of course there is the usual amount of helpful material, that must needs fall before the knife before long, but I am speaking of the men who are the stuff that can be whipped into a varsity team.

Taking the squad as a whole it might be said that the individual speed is very good, in fact, a little above the general average, but there seems to be a certain amount of crudeness in play and strategy. This fact can easily be traced to the lack of freshmen on the squad and the absence of veterans. When they are added, the game will show a different interference there is but little soundness of form, and most are rather inclined to fight the ball on punts and snags.

All these defects make it necessary of special to spend long hours in preliminary work, but he is a wise man who follows this plan.

Young Hopefuls.
It would be foolish to venture to select a definite variety at this early stage, but report has it that certain of the willing young warriors who are present time, although radical changes are made later possible.
At center, "Bub" Winans appears to be the logical man, his weight and offensive ability being fairly good. The guards, Deane and Simpson, will be two raw freshmen and need trimming, but they have the fight and speed. Left, "Thad" Jones at right tackle is radically a future. Shields may be used at left tackle, although Shields is of last year's subs, is making a bid for the place. Right tackle is the raw one. On the ends we have Buck, but Kirkpatrick at left is a bit of a place and he is a veteran. The guards, Deane and Simpson, will be two raw freshmen and need trimming, but they have the fight and speed. Left, "Thad" Jones at right tackle is radically a future. Shields may be used at left tackle, although Shields is of last year's subs, is making a bid for the place. Right tackle is the raw one. On the ends we have Buck, but Kirkpatrick at left is a bit of a place and he is a veteran.

In the back field, Pete Lous, the back field, is showing a great deal of pep and runs his team, but what he would do to gain strong opposition remains to be seen. Nick Hill, who was on last year's team, also appears to have the makings of a good quarter-back, but it is too soon to say. Hill will be valuable at an end or a half, as he is versatile player and better adapted to these positions than Lous. The line players behind the quarter

about midnight, awaiting definite information as to the law. When the telegram from Washington came, the office of the Times stating conclusively that President Wilson had not signed the new law, the various gun clubs which had been waiting for the Times were informed of the conditions and all went to bed happy in the knowledge that they would have their shooting in the morning free from legal entanglements.

The issue of the Firearms and Game Commission in San Francisco is laid first to that official having been misinformed as to the opening of the gun clubs of the northern districts, where the season does not open until October 15. Ed Tuffs of Tuffs, Lyons stated yesterday that he looked upon the erroneous report from San Francisco as having been inspired by the northern shooters, who desired to play a joke on the southern clubs and back their opening date for two weeks.

At the Bolina Club and the West Hills, many members had gathered. The club was keeping open house, and the question as to whether or not they would be lawbreakers if they did not wait for the opening was discussed. The club was keeping open house, and the question as to whether or not they would be lawbreakers if they did not wait for the opening was discussed.

One of the smaller duck clubs did not hold shoots, as their members were undecided as to their legal status. But two-thirds of the clubs and members were busy yesterday morning.

RUSSIAN WOMEN LIKE ATHLETICS.

Have Taken Violently to Outdoor Sports.

Even Rugby Football Played by Fair Sex.

Everybody Is Shocked; Girls Don't Care.

BY VLADIMIR LINTZ.

(BY DIRECT WIRE TO THE TIMES.)

ST. PETERSBURG, Oct. 1.—[Exclusive Dispatch.] Holy Russia's women have taken violently to sport. They have forgotten completely politics, learning, and all their own fetters.

It has been a quick transformation. Five years ago Russian girls of "Intelligentsiya" class looked on sport as the gambling of young savages, and they heartily despised the tomboys who played even ineffective tennis.

One of the smaller duck clubs did not hold shoots, as their members were undecided as to their legal status. But two-thirds of the clubs and members were busy yesterday morning.

Happenings on the Pacific Slope.

STANFORD HAS NEW PRESIDENT.

Dr. John C. Branner Made Head of the Institution.

Attending Throng See Ceremony in Open Air.

No Changes Are Expected in Administration.

(BY A. P. DAY WIRE TO THE TIMES.)

STANFORD UNIVERSITY (Cal.) Oct. 1.—Dr. John C. Branner, president of the oldest members of the Stanford faculty, was inaugurated today as the university's second president.

Trustees, faculty, alumni and undergraduates participated in the ceremonies which were held this morning in the open air inside the inner quadrangle.

Addresses were made by Timothy Hopkins, president of the board of trustees; Arthur G. Halm, president of the associated students; Horace Davis, a trustee, formerly president of the University of California; Earl C. Parsons, editor of the Daily Palo Alto; Charles K. Fields of San Francisco; Prof. John M. Sullivan, vice-president of the university; and President Branner. Rev. Dr. Charles Gardner pronounced the invocation and benediction.

A luncheon was given in President Branner's honor by the members of the board of trustees.

The memorial court will be the scene of a reception by the undergraduate body to President Branner and the trustees this afternoon. This evening, students will march to the home of President Branner and escort him to the quadrangle where a concert will be given.

Twenty-two years ago today Stanford University was opened to students and Dr. David Starr Jordan, then chancellor, was inaugurated as president.

In accepting the presidency, Dr. Branner recommended to the trustees that he be retired in two years.

BRANNER'S ADDRESS.

"Here and now," said President Branner to the trustees, "I beg to remind you that I shall be 41 years of age in July, 1915, and I recommend that I be retired at the end of that academic year."

The new administration will be conservative. "I have no new policies to announce," President Branner told his faculty, "no new theories of education to recommend or to urge. I find it difficult or impossible to do things just because some one else has done them. I am not a revolutionary. I believe in the reasonableness of most things as they are."

President Branner's address of acceptance, in part, follows:

"In assuming the duties and responsibilities to which I have been called, I take upon myself the vows of loyalty and I make public confession of the faith and hope that are in me. I count it a great honor to be chosen president of Stanford University."

"I cannot promise to be diplomatic, but you can always count on my frankness and straightforwardness. The problems of life appear to me to be merely the problems of each day."

The university has now been open twenty-two years. We have conferred 1,234 bachelor's degrees and 1,234 advanced degrees. The total number enrolled in twenty-two years is 12,311, not including the new students of the current year. The numbers are not large, compared with some of our American universities, but they are here enough, all things considered.

The university has only lately reached that stage of its growth that permits us to feel confidence in its future. It is like a ship to the extent that a shifting cargo spreads panic. The schooner is a ship, but it is not a ship in regard to this ship is that the cargo may shift.

"The beauty of our surroundings is an educational asset. The question arises whether or not we can make our buildings more attractive within. In our museum, we have thousands of beautiful works of art and our students seldom or never see them. Yet the walls of our lecture-rooms are as bare as the walls of a prison. To the student, the student can visit the museum if they wish, but there is no connecting the fact that our educational institutions are engaged largely in thrusting education upon the young people who come within our reach."

"A university is judged by the contributions made to literature, science, art and all the rest, and above all, by its contribution to sound citizenship and high thinking and right action. It is for this reason that most of our modern civilization has its roots in our universities."

Speaking of promises the university has made and unfulfilled, President Branner continued: "All promises do not turn to disappointments. For that reason I came to make one myself, and if I make it here and now, perhaps the occasion will hold me firmly to it. It is provided that the president of the university shall annually present to the board of trustees the names of all members of the executive staff over 45 years of age on the first day of the following academic year, with his recommendations as to their retirement or retention."

OFFICER'S WIFE SEEKS DIVORCE.

Charges May Involve Other Military Notables.

Alleges Trouble Started in the Philippines.

San Francisco Wedding Has Sequel in the Courts.

(BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO BUREAU OF THE TIMES, Oct. 1.—[Exclusive Dispatch.] Capt. William Perry Creary, Eighth Infantry, U.S.A., a guest of the Arlington Hotel, is defendant in a divorce suit which threatens to involve the names of other military notables.

He has been sued in the San Francisco courts by Mrs. Emma Forsyth Ramsay Creary, who was the widow of Col. Ramsay, U.S.A., and is now in her own right in excess of \$20,000.

The wedding took place at the Palace Hotel on April 28, 1911, and was attended by army folk from the Presidio and also from Monterey, where Capt. Creary was then stationed.

Cruelty alleged to have caused mental suffering are charged in the complaint, which seeks to hide the real trouble of the couple. Mrs. Creary says that when she was ill her husband, although enjoying an income of \$500 a month, refused to contribute to her support.

She asks the court to grant her alimony of \$150 a month, \$1000 for past counsel and \$500 for court expenses, including the taking of depositions in the Philippines Islands.

The couple will be in court for the first time next Friday before Judge E. P. Morgan by whom testimony will be heard regarding the financial status of Capt. Creary.

ARRIVED FROM PHILIPPINES.

Capt. Creary and his wife arrived in San Francisco on May 17 last from the Philippines Islands. When they landed at the dock their romance was over. For appearance only, it is said, they kept up a speaking acquaintance on the transport.

At the dock Mrs. Creary took a taxicab to the Stewart Hotel. Capt. Creary went to the Arlington.

Since then both have occupied a greater part of their time with lawyers. Capt. Creary first had drawn a complaint with sensational charges and a copy thereof was filed in court.

Then lengthy conferences were held by counsel for the husband and the wife, with the result that a modest complaint now on file, which is answered by the husband with a general denial, was drawn up.

Since his arrival in this city, Capt. Creary has been awaiting assignment orders. In a few days he expects to be sent by the War Department to an eastern station.

Mrs. Creary left the Stewart Hotel a few days ago and is now dividing her time between a sister in this city and another sister in Monterey county.

This is not the only trouble had by Capt. Creary and his wife. Soon after their marriage they went to the Monterey post, where Mrs. Creary soon filed suit for divorce. A reconciliation followed.

Although the marriage license issued to the couple gives both ages as 41 years, it is said Mrs. Creary is her husband's senior by about ten years.

Capt. Creary rose from the ranks to his present position in the army and has, it is said, a fine record for valor.

Mrs. Creary, it is said, inherited her fortune from her parents, said to be related to the late Gen. Forsyth of Civil War fame.

RAILROAD WINS FIGHT.

To Comply With Franchise Train Is Run Three Times Over Obstruction of Rock and Dirt.

(BY A. P. NIGHT WIRE TO THE TIMES.)

OAKLAND (Cal.) Oct. 1.—Two forces, aggregating 100 men, fought a bloody battle at Havenscourt, on a Southern Pacific right of way, this morning. Employees of a local real estate firm, in an effort to prevent the operation of a new electric line extension, piled the tracks high with rocks and dirt. The Southern Pacific men stormed the barricade with a machine gun and a line of men, forcing the real estate men to retreat. The trip over the obstruction had to be made three times to carry out terms of a franchise, and this was done. According to the real estate company, the company has failed to keep its promise as to rates and the statement has been made that the road will not be allowed to operate through the property.

ORCHARD CALLS A HAIT.

Church Association Delays Petition for Conviction Parole on Account of Many Protests.

(BY A. P. NIGHT WIRE TO THE TIMES.)

BOISE (Idaho) Oct. 1.—As the result of a storm of protest from all over the State, no pardon for Harry Orchard, confessed slayer of former Gov. Frank Steunenberg, was asked by the Metropolitan Church Association of Waukegan, Wis., when the State Board of Pardon met today. Notice had been published, as required by law, that a pardon would be sought, but on account of the protests, Orchard, it is understood, insisted that the petition be delayed.

TO CANCEL COAL CLAIMS.

TESTIMONY IS TAKEN.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SEATTLE (Wash.) Oct. 1.—Taking of testimony in the United States suit to cancel coal claims entered by Albert Frost of Chicago, Frank Watson of Spokane and others in the Matanuska field, Alaska, was begun today before a special United States Commissioner. The defendants did not put in an appearance, nor were they represented by counsel. This default is equivalent to consenting to cancellation of the claims. The claims are in what is known as the Watson group, or Chicago group. Forty claims of the sixty-four in the group had already been cancelled.

PLACE BLAME FOR WRECK.

DUE TO DECEASED FILER.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SAN FRANCISCO, Oct. 1.—The Railroad Commission has found that the collapse of the railroad trestle across the American River near Sacramento the night of September 5, when a gravel train fell through and the engineer and fireman were fatally injured, was due to the decay of piles which supported the structure. The Northern Electric Railway Company, which owns the bridge, was preparing to strengthen it just before the accident happened. No criminal responsibility is placed upon the railway company.
